## ROBERT J. THE WINNER.

The Champion Pacer Gets Another Race to His Credit.

### WON IN THREE STRAIGHT HEATS.

A Crowd Various Estimated at Twelve to Eighteen Thousand Witness the Great Event—Gentry Takes Second Place and Mascot Third.

NEW YORK, Aug. 30.—The number present at Fleetwood Park yesterday is conservatively estimated at 12,000, and some enthusiasts place it as high as 18,000. The capacity of the club house and amphitheatre were fully taxed and hundreds crowded the quarter stretch and infield. The attraction was, of course, the contest between the champions of the pacer brigade, Joe Patchen, Robert J. Gentry and Mascot. Mascot drew the pace, and they went to the quarter in 31 seconds. Robert J. a good length in the lead. The half was reached in 1:02, the positions being relatively the same. Going up the hill in the third quarter Joe Patchen made a disastrous break just as Gentry was preparing to make his drive. Robert J. now looked to have the heat safe, but a second later Mascot came on and assumed the lead, gaining an advantage of at least five lengths. Robert J. quickly recovered, however, and as he felt the electric touch of Ed Geers along the reins he came like a meteor, rapidly overhauling Mascot, passing him a hundred yards from the wire and winning amid great applause.

In the second heat, Joe Patchen dashed the hopes of his backers by a bad break after getting the word. When he recovered he was hopelessly out of the hunt, and Gentry wisely gave him an easy mile. Again Robert J. swung out in the lead, both Gentry and Mascot hanging to his flanks with a grip that he could not shake off. They reached the quarter in 30 1/2 seconds, the intense interest of the crowd being manifested by a subdued murmur as the time was announced. Down the half the pace was quickened, the second post being reached in 1:03 1/2. Still the two pacers were clinging to Robert J.'s side, and the three-quarters post was reached in 1:39 1/2. At the distance flag McHenry, Gentry's driver, resorted to the whip, but he could not reach, and Geers guided Robert J. under the wire first by an open length in 2:01 1/2. It was the fastest heat ever paced or trotted on Fleetwood.

The race was now conceded to Robert J. The first part of the third heat was much like the others, except that Joe Patchen seemed to be an element, and the clip was even faster. Robert J. again assumed the lead, the others close up, and the first quarter was reached in 30 1/2 seconds. The horses went well bunched to the half in 1 minute. At the Point of Rocks, Joe Patchen stepped into Gentry's wheel, tearing the tire off. The former went to a bad break and was out of it. Gentry came on with a warbling sulky and beat Mascot for place. Geers pulled Robert J. to mere jog to let Patchen in, and finished in 2:01 1/2. Had he been driven into the mile might have been paced in 2:01 or better.

Li Hung Chang Promoted. SHANGHAI, Aug. 30.—Li Hung Chang had an audience with the emperor yesterday, and as a consequence will remain in Peking as grand secretary. He has also been appointed imperial chancellor by imperial decree in place of viceroys of the province of Chi-Li, which office he formerly held.

## THE PRESIDENT'S COMPLIMENTS

To the Associated Press on Securing Direct Communication with Mexico.

BUZZARD'S BAY, Mass., Aug. 30.—The dispatch announcing the establishment of a daily news service between the United States and Mexico by the Associated Press was shown to President Cleveland, and the interest of the chief magistrate of the United States was at once excited by the news.

After reading the dispatch Mr. Cleveland expressed great pleasure at the assurance of a more vital connection between the two countries, which, he said, would doubtless be productive of much good. "It is a cause for great congratulation," the president said, "that the adjoining republics of the United States and Mexico are brought into closer communication through the enterprise of the Associated Press, and I am sure this last demonstration of its advanced ideas as a news agency will result in great benefit to the people of both countries."

## Holmes Indicted in Indianapolis.

INDIANAPOLIS, Aug. 30.—The drug with which Howard Pitzel was killed before his body was burned in the big store in the Irvington cottage has been found. A part of a bottle of cyanide of potassium was found buried in the barn. Boys digging under the Holmes house, in an unfinished portion of the cellar, found the two feet of Howard Pitzel. They had been burned, but not destroyed and were evidently too bulky to put into the chimney hole. With the feet was found buried a five quart can. There was some coal oil in it. The grand jury has returned an indictment for murder against Holmes.

## No Prize Fighting in Mexico.

WASHINGTON, Aug. 30.—Judge F. B. Earnest, collector of customs at Laredo, Tex., who is in the city, was asked if the Mexican authorities would permit the Corbett-Fitzsimmons prize fight to occur in the boundaries of the republic, as indicated in dispatches. In reply Judge Earnest said: "President Diaz some time ago announced that no such meeting could be held within the borders of his government. What he said he will uphold. If necessary, he would head an army in person and break up the fight."

## An Alleged Counterfeiter Held for Trial.

ALTOONA, Pa., Aug. 30.—Harvey Hawthorne, of Clearfield, had a hearing before United States Commissioner Griffin on the charge of making counterfeit money. Detective Griffin produced a counterfeit of the outfit found in Hawthorne's house. Adam Barnett testified that Hawthorne had offered to teach him how to make the coin. Barnett purchased some of the spurious money. Hawthorne was held for trial.

## Minister Ransom to Return to Mexico.

WASHINGTON, Aug. 30.—Minister Ransom took the oath of office yesterday, and expressed his intention of starting on his return to Mexico within the next few days. His health has greatly improved. It is understood that one of Mr. Ransom's principal missions will be to induce Mexico to recede from the position she has taken on the extradition of American criminals who have announced their intention of becoming citizens.

## Savannah Flooded with Counterfeits.

SAVANNAH, Aug. 30.—This city has been flooded with counterfeit two dollar bills. Some are of the series of 1889 and bear the picture of Hancock and it is difficult to detect them from the genuine. Others are of the series of 1891, bearing the picture of Winfield, and are more easily detected. It is the impression that counterfeiters are working them off in large quantities in this section of the south.

## Anarchist Trial Collapsed.

BERLIN, Aug. 30.—The anarchist trial at Magdeburg has collapsed. Eight of the accused were acquitted, and one was sentenced to two months' imprisonment on a charge of inciting to bomb throwing. The president of the court declared that whatever their secret actions may have been, there was no evidence of reasonable intentions. It is generally felt that the government made a mistake in prosecuting.

## Charged with Aiding Perry's Escape.

TROY, N. Y., Aug. 30.—Miss Amelia E. Haswell, a city missionary, was arrested at the Union depot by Officer T. J. Furlong, a member of the New York Central and Hudson River railroad police system. The officer was armed with a warrant charging Miss Haswell with aiding the escape of Oliver Curtis Perry, the train robber, from Matteawan asylum.

## Noted Flag on Chicago's Streets.

CHICAGO, Aug. 30.—It has been rumored that upon the arrival in Chicago of Keir Hardie, the English labor leader, the socialists would unfurl the red flag at an open air demonstration on Sunday at which Hardie and John Swinton would speak. Mayor Swift has issued positive orders against the carrying of the red flag through the streets.

## Calls It a Rebuke to Corporations.

ALTOONA, Pa., Aug. 30.—Governor Altgeld, of Illinois, passed through this city yesterday. In conversation with an Associated Press reporter he said that in his opinion the victory of Senator Quay in Pennsylvania is a severe rebuke to corporations.

## AGAIN THE DEFENDER.

She Adds Another to Her List of Aquatic Victories.

### LEFT THE VIGILANT FAR ASTERN.

A Race Fought in All Sorts of Weather Again Proves the Claim of Herreshoff's Latest Production to the Title of Cup Defender. Valkyrie Also Out.

NEW YORK, Aug. 30.—The second trial race between Defender and Vigilant over a triangular course, eight miles to the leg, starting from the Scotland Lightship, was one of the most interesting events that ever took place in New York harbor. There was all kinds of weather, from almost a dead calm up to a blow of forty miles an hour. There were reaching, close-hauled sailing, running before the wind and free reaching before the race was over. The growing interest in yachting was proven by the large number of boats of all kinds that went outside the Hook to see the race.

Shortly after 11 o'clock the yachts crossed the starting line, the Defender being

JOHN HERRESHOFF. NAT HERRESHOFF. ing twelve seconds ahead. Both boats stood well off to the southward, which gave them a beam wind. For a couple of miles the breeze continued to blow at the rate of seven or eight knots an hour, and they went ahead fast, the Defender continually gaining on the Vigilant, until, at the end of two miles, she had a lead of over half a mile.

At this time Valkyrie, who had come out from her berth inside the Hook, showed up in the open and undertook to chase the racers. She fell into the same breeze that the Defender and Vigilant had when they started on their journey, and carried it with her down the course for two miles when it collapsed. Defender and Vigilant had the breeze desert their some time before, and they were only standing still when the English boat nearly came up on them with a rush that was occasioned by the breeze which all had been favored with up to the northward, but which dropped at a point about two miles to the southward of the line.

The Valkyrie was carrying her monster mainsail and club topsail, as well as her jib topsail, which fairly belonged to the same class of mammoth sails. When Valkyrie got down to within three-quarters of a mile of Vigilant, and was half a mile to leeward and found herself in a practical calm, she went about in a laboring way and headed for home. Experts who watched the English boat said that even in that very light air and the smoothest kind of a sea she made a good deal of a commotion from her bows, even more than Vigilant. Every official on Valkyrie from Lord Dunraven down to Ed Young, the pilot, was much more interested in the action of Defender than in that of their own vessel.

Even in the almost imperceptible breeze Defender made headway. Vigilant, though she eased off sheets and tried to gather in the breeze on her mainsail in that way, could not pick up on her heel. The boats lagged along for almost two hours in that way. Defender continually gaining. Just before they came to the first mark Defender found it necessary to make a tack, by which she lost over half a minute. Vigilant came down for the mark straight. Then began a run before the wind for eight miles, the result of which not only enhanced the good opinions of Defender's adherents, but made them wonder. At no time have Defender and Vigilant met in a run before the wind before when Vigilant has not beaten Defender. But yesterday the keel boat covered the eight miles in not only better time, but gained the astounding advantage of two minutes and thirteen seconds.

After rounding the second mark a big black squall came out from the south southwest and went for the sails of the racers. The course of the last leg was west by south, and the Defender had no sooner turned the mark than the gale was upon her. She stood it bravely and there was no inclination to take in her big club topsail. Mr. Iselin, Captain Hoff and Nat Herreshoff, all of whom were aboard, were content to let the people see that they had a boat which could stand up in a breeze of wind. The sheet of her jib parted under the strength of the forty-mile wind, and within a minute that sail was in ribbons. Within three minutes the fragments had been in a mangled down and another new and whole sail set in its place.

The last leg was a close reach for home. The Vigilant, which had not been able to withstand the blow, took down her club topsail soon after rounding the second mark, and shortly after withdrew her baby jib topsail.

The Valkyrie got a little piece of this squall as she was returning to her berth, but Captain Cranfield had hauled down all head sails and the prodigious club topsail. But it was said by the sharps who looked at her from Sandy Hook that, with only her massive mainsail set, she heeled over enough to show that she is very tender for one so big.

Defender went on, fairly boiling through the water. There was a good chance for Defender to make a lively kick off from her bows, but her deck was on the level and her performance was simply marvelous. In the blow after it, when the wind dropped to about ten miles an hour and lasted at that strength up to the finish, Defender went on increasing the gap that was between her and Vigilant. So it can be seen that, in every point of sailing,

even the run before the wind with spinners set, and in all strength of breeze, the Defender not only outlasted the Vigilant, but beat her almost ridiculously.

And yet the America's cup committee does not seem to be satisfied that Defender is the better boat, for they ordered another trial race for today. Be that as it may, the following table will show how Defender beat Vigilant:

	First	Second
Start.	Mark.	Mark.
Defender.	11:20:40	2:06:17
Vigilant.	11:20:40	2:06:17
Defender won by 13 min. 3 secs., not counting time allowance, which has been estimated at 1 min. 30 secs.		

## HAWAII AND GREAT BRITAIN.

Natives of the Islands Favor the Great European Power.

LONDON, Aug. 30.—Colonel MacFarlane, former aide-de-camp to the late King Kalakaua, has just arrived in London. In an interview he said that he was informed that a few Hawaiian politicians and merchants who favored the old form government would wait upon President Cleveland when congress reassembles to urge the annexation of the Sandwich Islands. The primary object, he said, would be to test the sincerity of the officials of the Hawaiian republic. A large number of Americans, he remarked, had joined the republican party in Hawaii, it being generally understood that the existing republic in the Sandwich Islands provided only for a temporary government until annexation to the United States could be arranged.

The present officials having been in office a year or more, and no special effort having been made to attain this end, the Americans in Honolulu are dubious respecting the intentions of the present Hawaiian republic, hence the projected application to the United States government for annexation.

In conclusion, Colonel MacFarlane explains that Mr. Cleghorn, the father of Prince Kalulani, is now en route to England, accompanied by ex-Consul Wodehouse. It is believed that one of the objects of their visit is to present to the British government a full account of the situation of the Hawaiian islands, with a view of restoring the monarchy. Still, failing to bring about the restoration of the monarchy to which they naturally incline, they would really prefer annexation to Great Britain. Of course the American influence is in the ascendant, but the British influence is also large.

Colonel MacFarlane favored a permanent republic of the islands, the best elements of both parties forming a coalition for the support of the government. Failing such coalition, annexation to the United States would be the most advantageous commercially, but there is no doubt that if a test vote were taken the natives, who constitute a majority, would vote largely in favor of closer political relations with England.

During the course of the interview Colonel MacFarlane remarked that the United States had just made a demand for the payment of \$25,000 to an American named Durrell. Other American claims, he said, would soon be presented.

## Cleveland Breweries to Consolidate.

CLEVELAND, Aug. 30.—It is said that negotiations have been in progress here for several days past looking toward the combination of all breweries in this city. A leading brewer stated today that he believed that within a few months all the outside every brewery in the city would be in the trust, and under one management. It is also claimed that it is not the intention to raise the price of beer, but to do away with the backing now extended to saloonists by the brewers, which consumes a large percentage of the latter's profits.

## An Indian's Matrieide.

SHELBYVILLE, Ind., Aug. 30.—John Wrennack, aged 24, shot and instantly killed his mother. He had been drinking and quarreled with Miss Eva Nelson, who was at the Wrennack house. He threatened her and getting an old musket chased her out of the house. When she returned Mrs. William Wrennack was with her and just as the door opened Wrennack fired. The entire load was emptied into his mother's breast and she fell at his feet a corpse. He said he did not know the gun was loaded.

## Twelve Prisoners Break Jail.

GENEVA, Ill., Aug. 30.—Twelve prisoners broke jail during the night. Two were captured, but the others are still at large. Their names are: Francis O'Brien, Arthur Clark, Ed W. Lewis, Clancy, Fred Phing, Dan Sall, a negro, John Smith, two men whose names are Kelly and Henry, and one unknown. The escape was effected by reaching through the bars and turning a bolt which opened thirteen cells. Men are in hot pursuit in every direction.

## To Prosecute the Tobacco Trust.

NEW YORK, Aug. 30.—Attorney General Theodore Roosevelt is preparing to bring suit against the American Tobacco company to annul the certificate authorizing it to do business in this state. The preliminary step was taken yesterday, when the officers were served with a summons to appear on Saturday to answer to a complaint that they are doing business in violation of statute.

## A Sailing Party Drowned.

HALIFAX, N. S., Aug. 30.—A dispatch from Charlottetown reports the probable loss of seven lives. Five men and two women went from Cape Bauld in a sailboat to Fifteen Points. They remained there with friends over night, and left next day to return, and nothing has been heard of them. The supposition is that the boat foundered, and that all on board were lost.

## Surprised the Burglars.

NELSONVILLE, O., Aug. 30.—Burglars attacked the hardware store of Cable & Co., during the night, and broke through a window, but were met by several watchmen, who were expecting the burglars. Several shots were fired. The burglars escaped, but James Knight, a clerk in the store, was fatally shot in the back.

## MANY MINERS DROWNED

Caught Like Rats in a Trap Near Central City, Colo.

### THIRTEEN MEN PROBABLY DEAD.

The Water Came Rushing Upon Them Before They Could Seek a Place of Safety. The Accident Due to the Neglect of the Mine Managers.

CENTRAL CITY, Colo., Aug. 30.—The accidental flooding of the American and Sleepy Hollow mines yesterday afternoon caused the death, it is believed, of thirteen miners. Every effort is being made to rescue the unfortunate men, but little hope is entertained. A little after 3 o'clock the water in the lower workings of Fisk mine, east of the main shaft, broke through the old workings of the vein, that has not been worked for a number of years. Coursing eastward, it struck the Americans, where two Italian miners, whose names have not been learned, were at work in the lower part of the shaft. They were both drowned. In its course the water diverted to the Sleepy Hollow mine, the easterly portion of the Fisk mine. Fifteen men were working in the existing republic in the Sandwich Islands provided only for a temporary government until annexation to the United States could be arranged.

In the Sleepy Hollow, whose escape was shut off, were the following: N. Vegas, B. Brocken, Brower Brisk, William Brisk, Thomas Pease, Thomas Williams, M. H. Lacey, Thomas Colbus, J. Harris, S. Valero and John Parks.

The sounding of the whistle gave the first signal of distress, and soon the shaft building of the Sleepy Hollow mine was so crowded with the families and relatives of the imprisoned miners, and those wanting to give assistance, that it was almost impossible for the work of rescue to go on. Sheriff Williams finally arrived on the ground, the building was cleared and the imprisoned miners were taken to the lowering the buckets. The farthest depth attained was 330 feet, the accumulated gas forced up by the rising water being such that a candle would not burn at a greater depth. A second effort was made, a larger sized safety lamp having been placed in the bucket.

The first rescuer who descended in the bucket found Mr. Brisk at the 330 foot level. On reaching the surface he was almost in an insensible condition. Another man went down afterward, but was unsuccessful in reaching a lower point in the shaft, owing to the rising of the water. The managers of the property were on the ground and were very assiduous in their efforts to relieve the men. The two in American mine without doubt dead. Those in the Sleepy Hollow, unless they can be found in some outflow, have met death in a similar manner.

Ever since the closing down of the pumps in the incline shaft of the new Gregory Mining company the waters in the shaft have been gradually rising, the Fisk mine having been driven out of the lower to the upper workings. This was due to the inability of the owners of the Fisk and Sleepy Hollow to agree upon a plan to prorata the drainage.

## An Exile Imprisoned in Germany.

DEUTER, Ind., Aug. 30.—H. M. Romberg, a prominent citizen of this city, left here about ten months ago to visit his old home at Hamburg, Germany. Word has just been received here that he has been taken by the German officials and sentenced to twelve years' imprisonment. The crime with which he is charged is that of whipping an official in the army prior to his coming to this country. Romberg came here about twelve years ago, and during his stay here accumulated quite a fortune. He is a prominent member of the Democratic county central committee. He has a wife and five small children here, who are wild over the news.

## Delaware's Ex-State Treasurer Dead.

NEW CASTLE, Del., Aug. 30.—Ex-State Treasurer William Herbert died yesterday afternoon, after a long illness. He was born in Philadelphia in 1839, and was one of the best known Democratic politicians in this state. In 1894 he was elected sheriff of this county, and during the famous Collier-Kelley prize fight the following year Mr. Herbert stepped into the ring near Newark and stopped the fight. He was prominently mentioned for the gubernatorial nomination in 1895.

## Smalley Was Not a Criminal.

MCBAIN, Mich., Aug. 30.—A letter has been received by Mrs. Smalley from J. C. Anderson, of Burton, which seems to show that her husband, John Smalley, who was killed while resisting arrest, was neither one of the Chicago and West Michigan train robbers nor the murderer of Detective Powers. Reputable citizens of Brighton have sworn to a complete alibi for Smalley, and fifty other residents are willing to back up the alibi.

## Captain Baldwin Not Killed.

WASHINGTON, Aug. 30.—Officers on duty at the war department regard the story telegraphed from El Reno, O. T., that Captain Baldwin, of the Fifth infantry, acting Indian agent at the Comanche and Apache agency, had been killed by Indians as a "fake" pure and simple. If there was any truth whatever in the story they think that the department would have been notified of it long before this.

## Durrant Jury at Last Secured.

SAN FRANCISCO, Aug. 30.—The work of completing a jury to try Durrant was ended yesterday by the acceptance of Samuel F. Dutton, a wholesale grocer. Both sides joined in a request for an adjournment until Monday, which was granted.

fever, and her condition is regarded as critical.

Misses Mamie and Jennie Schellenberg have returned from a two weeks' visit to friends in Brooklyn.  
Miss Catherine Selleck, of Middletown, is the guest of Mr. Isaac Selleck, at Stone Bridge.—*Warwick Dispatch*.

Mr. George K. Wilkin, of the Postal telegraph office, returned, last night, from a week's outing at Ocean Grove.

Master Fred A. Phillips has gone to Ellenville to spend a week with his grandparents, Mr. and Mrs. F. Kuhfeldt.

Miss Lillie Holliday, of Brooklyn, who has been visiting her aunt, Mrs. M. E. Saunders, of Richmond Hill, for some time past, returned home, to-day.

## HE WASN'T DROWNED.

A Joke That Caused Much Anxiety to the Many Friends of E. A. Tice.

Mr. and Mrs. E. A. Tice are sojourning at Aabury Park, and when a report was spread about town, this morning, that Mr. Tice had been drowned yesterday afternoon at that place, his many friends were greatly shocked and attempted to get some details.

This inquiry resulted in obtaining the pleasing information that there was no truth in the report, and that it started from an alleged joke on the part of Mr. Tice's baker, and was put in circulation by the boy who furnishes yeast to the bakery.

The baker told the boy not to leave the usual quantity of yeast this morning, and when the boy asked why the baker said: "Mr. Tice was drowned yesterday, and the store will be closed to-day."

The boy accepted the explanation as truth and told it to everybody he saw.

## Funeral of Dennis Neville

The funeral of Dennis Neville took place at St. Joseph's Church, at 10.30 o'clock, this morning, and was attended by a large number of friends. A solemn mass of requiem was celebrated by Rev. Father McManey.

McQuoid Engine Co., of which he was a member, attended in a body in full uniform.  
The body rested in a purple plush covered casket and was dressed in the uniform of McQuoid Engine Co.

The following members of the company acted as pall bearers: Jas. O'Brien, John Holland, Geo. Lawrence, John Lawder, Thos. Gillen, D. B. Sweeney.

Among the floral offerings were an anchor from McQuoid, and a pillow from his wife and father. The flower bearers were Messrs. Bernard Haley and Peter Short.

The interment was in St. Joseph's Cemetery.

## THE RECORDER'S HEART TOUCHED

A Ten Days' Sentence Revoked When a Tramp Produced a Bible and His Mother's Picture.

Special Officers Wilson and Skelton brought three tramps before the Recorder, this morning, on charges of stealing rides on freight trains. All had plausible stories of poverty and ill health, but the Recorder pronounced a sentence of ten days each in Goshen jail. This was afterwards revoked and the men were run out of town.

One of the men, when searched, produced a small bible and a photograph of an old woman, presumably his mother, and it was this circumstance which softened the Recorder's heart and induced him to change the sentence.

Recorder's Court

One drunk was run out of town, this morning, upon his promise to sin no more.  
A complaint of disorderly conduct, made by a wife against her husband, was ruled out of court when the evidence was heard. The complaint should have been from the other side of the house.

William Johnson, caught stealing coal from Wilson & Wood and selling it, was sentenced to thirty days in Goshen jail.

Henry Reed, an Albino, was charged with disorderly conduct by his wife. The case was adjourned for thirty days on his promise to get out of town.

A Bicycle Trip to Washington

Two Main street business men, Messrs. Chas. Cooper and Harry Squier started, to-day, on a bicycle trip to Washington, D. C. Their route is via New York, Trenton, Philadelphia and Baltimore. They expect to remain a few days in Washington and will return in about two weeks.

## THE GOSHEN RACES.

Prospects Are Bright for a successful Meeting Next Week.

Appearances indicate that the fall meeting of the Orange County Driving Park Association at the Goshen Driving Park, on Monday, Tuesday, Wednesday and Thursday of next week, Sept. 2, 3, 4 and 5, will be the most successful of any meeting given under the auspices of this association. There are 171 entries for the thirteen speed events and interesting contests are assured.

The programme for Monday, Sept. 2, includes a purse of \$400 for 2.24 pacers, with eight entries; \$400 for 2.27 trotters, with eight entries, and \$300 for the 2.35 class, trotters four years old or under, with twenty entries.

On Tuesday there is a purse of \$200 for the 2.40 class, trotting and pacing, Orange county horses, with twenty-two entries; \$600 for the 2.13 class, trotting, with a ven entries, and the Arden Farms stake of \$500 for two-year-olds, with twenty-three entries.

Wednesday's programme embraces a purse of \$300 for 2.35 trotters, with seventeen entries; \$700 for 2.13 pacers, with eight entries, and \$400 for 2.24 class, trotting, with ten entries.

For the three-year-old colt stake of \$300 on Thursday, there are eighteen entries; there are twenty-two in the 2.30 class, trotters, for which a purse of \$500 is offered, and seven in the 2.19 pace, for a purse of \$400.

The music, which has always been an interesting and prominent feature of these meetings, will this year be better than ever before. The Goshen Band, strongly reinforced for the occasion, will render an attractive programme of popular and classical music on each day of the races.

Recent improvements to the grounds and more particularly to the grand stand, will conduce to the comfort and convenience of spectators, while the enlargement of the stand and its consequent increase in seating capacity insures ample accommodations for all who may attend.

## TIRED OF BROMIDES.

A D. T. Patient Leaves Barfall Hospital and Breaks Into a Bathroom.

A patient undergoing treatment for delirium tremens escaped from Thrall Hospital, last evening, and made his way to the hotel of Wm. Vogel, on Wickham avenue, where he forced an entrance into the bathroom through the side door by breaking a pane of glass.

After a survey of the premises he made his exit through a rear door, and was afterwards captured and returned to the hospital.

There is no evidence that anything was taken from the premises, except that the unfortunate man may have helped himself to liquid refreshments. Mr. Vogel heard a crash of glass, but had no idea that he had a visitor until he opened his place this morning.

## BEST SEASON IN YEARS.

The Dutchess Hat Works in Fishkill Landing Rushed With Orders.

The Newburgh News says that the Dutchess Hat Works at Fishkill Landing, which belong to the estate of the late Lewis Tompkins, which owns the Walkill Hat Works, in this city, are one of the busiest places in the State. The main drive is in ladies' hats and 300 hands are kept on the jump in turning out orders. The season is declared to be the best of any for years and the prospects are good for a brisk and profitable season.

## Colored Masons at Midway

An excursion of colored people, under the auspices of a colored Masonic Lodge of Paterson, came to Midway, to-day, over the E. R. road to Goshen, and thence to the park by the electric road. There were nine well filled coaches, and with the additions from Goshen, Chesser and this city it is safe to say there are 800 colored people at the park.

## The Bull Family Picnic.

The Bull family picnic, held, yesterday, in the grove at Campbell Hall, was well attended, many members of the family from distant points being present. The old officers were re-elected and it was voted to hold the next reunion at the same place. No addresses were made.

## Able to Be Out.

Conductor George White was out on the streets for the first time, to-day, since his accident. He walks on crutches owing to an injury to his hip. He is recovering rapidly, however, and says he will be all right in a few days.

## An "After Haying" Attack.

David R. Miller has done nothing on that "after haying" job of street work on the extension of Highland avenue. He isn't really to blame, however, for ever since he finished haying he has been suffering from hay fever.

Diarrhoea should be stopped promptly. It soon becomes chronic. DeWitt's Colic & Cholera Cure is effective, safe and certain. Hundreds of testimonials bear witness to the virtue of this great medicine. It can always be depended upon; its use saves time and money. W. D. Olney.

## IN ANCIENT GOSHEN.

The European Party on Their Way Home—The Time We Feel at Liberty to Criticise Our Friends.

From a Special Correspondent.

—The City of Rome, on which the Goshen party sailed, is expected to arrive in port on Friday.

If there is one thing above another about our fellow men and women that we somehow feel at perfect liberty to criticise, it is the way in which they bear their troubles. It is harder to please everybody in regard to this one matter, than in almost anything else in the world. If the afflicted person mourns too long, we accuse him of being morbid and of not making a sufficient effort to overcome his grief. If, on the other hand, he bears himself cheerfully, we shake our heads over him and say that he has no deep feelings and does not mind things so much as more sensitive spirits, meaning, of course, ourselves, do. This is a matter in which it is very hard to preserve a happy medium, but perhaps, before we condemn anyone too severely, it would be well for us to remember that there is sometimes a very thin dividing line between laughter and tears. If any one was to paint a picture that was all light or all shadow, it would be neither attractive or true to nature, and it is not the author who shows us only the dark side of life, nor the one who paints it only in glowing colors, whom we like best to read, but the one who presents it to us as it really is, with its mingled pathos and humor, its bitter griefs and mitigating joys. People of different temperaments must necessarily take things differently, and how fortunate it is that we do, for if we should all be simultaneously seized with the impulse to bewail our grievances both real and fancied, what a chorus would arise to Heaven, and there would be no one to listen to our woes, for we should all be occupied in the recital of our own. If the Lord had wished us to be all alike doubtless he would have made a pattern by which we could be cut out, but as He did not see fit to do this, we shall probably go on until the end of time seeing most matters from different standpoints. G. H.

## UNDER THE CAR WHEELS

AN O. and W. Brakeman Falls From His Train at Burnside and Is Run Over—Both Legs Crushed—Dies After Being Brought to This City.

Jacob Lee Babcock, a brakeman on train 21, the Ontario and Western's way freight, while making a flying switch at Otterkill Switch, between Campbell Hall and Burnside, at 8:35 o'clock, this morning, fell from the bumper of an empty gondola to the tracks.

The wheels of the car passed over both legs above the knee.

Conductor Harding heard the injured man's cry for help and rushed to his assistance. Babcock retained consciousness long enough to recognize his conductor when he lapsed into unconsciousness and remained in that state until his death, which occurred upon his arrival at the Wickham avenue station in this city.

After the accident, Babcock was placed in the caboose by his fellow trainmen and taken to Campbell Hall. No physician could be found there, and he was brought at once, to this city by the engine, and caboose, the balance of the train being left in the switch at Campbell Hall.

Dr. Mills and the ambulance were in waiting to receive the injured man, but he died, just as he was being lifted into the conveyance.

Deceased was the only son of Erasmus R. and Marietta Babcock, of No. 41 Beattie avenue, this city, and was born in the town of Warwick, about twenty-two years ago.

Two years ago he was married to Bertha Ellis, of Livingston Manor, who with one child, Floyd L., aged nine months survives him.

He was until recently a resident of this city, but a short time ago, moved to Livingston Manor.

Mr. Babcock had been employed by the O. and W. for the past four years and was a member of Division No. 40, Brotherhood of Railroad Trainmen, and carried \$1,200 insurance in the order.

Coroner Decker took charge of the remains and empanelled a jury. The inquest will be held Monday morning at 10 o'clock.

The funeral arrangements will be made this evening, after the arrival of Mrs. Babcock, who has been summoned from Livingston Manor.

## MOUNT RETIREMENT ALUMNI

Fifth Annual Reunion at Midway Park To-day.

The fifth annual reunion of the Alumni Association of Mount Retirement Seminary was held at Midway Park to-day.

The members of the association are scattered all over New York and New Jersey, but a goodly number were present on this occasion.

The officers of the association were at the park depot to receive the members as they came on the electric cars, and directed them to the pavilion, where they met to exchange greetings and renewed the friendships formed during school days.

Arrangements had been made for a dinner at the park restaurant, and at 1 o'clock the members of the association sat down to an elegant repast.

After dinner a business meeting was held in the pavilion, at which Moses DeWitt, Esq., of Newark, N. J., was elected president in place of Hon. M. D. Stivers, deceased, and all the other officers were re-elected as follows:

Vice-Presidents—Mr. and Mrs. W. H. D. Blake, New Paltz; Mr. W. H. Rogers, Middletown; Mrs. Geo. A. Swalm, Middletown; Mrs. J. M. Dolph, Port Jervis, and Col. W. D. Dickey, Newburgh.

An address eulogizing the late president was delivered by the president-elect, Moses DeWitt, Esq.

**A "LIMITED" CAR ON THE PARK LINE**  
Those Willing to Pay Extra Need Not Be Crowded

The Traction Company has decided to run "limited" cars to the park, that is, every purchaser of a ten cent ticket will be entitled to a seat in the "limited" car and only the seating capacity of the car will be sold.

There will be no standing or overcrowding. A flag will be displayed from the signal pole at Franklin Square on afternoons and evenings when the "limited" car is run.

## THE RACES ARE OFF.

The Entries Not Sufficient to Warrant a Meeting

Lovers of horse racing will learn with regret that the races advertised to take place at the Campbell track, under the auspices of the Middletown Fair and Driving Park Association, which were to have taken place on Sept. 10th, 11th, 12th and 13th, have been declared off.

The reason assigned is that the entry lists, in the several classes, were not filled.

**Testing a Rebuilt O. and W. Engine.**  
Road Foreman Geo. W. O'Neal returned, last night, from the Northern Division of the O. and W. where he had been testing engine No. 27, which was recently rebuilt by the Cooke Locomotive Works at Paterson.

The engine will draw trains 1 and 2 on the Northern Division. Mr. O'Neal ran the train ten miles in ten minutes and twenty seconds.

Engineer Wm. Parlee entertained a number of his friends and neighbors at a clambake on the lawn in front of his residence on Albert street, last evening.

**Grove Meeting at Cleveland Park**  
Rev. J. H. Nichols, of Bethel Church, will hold a grove meeting in Cleveland Park, at the northern terminus of the trolley line, Sunday, Sept. 1st. A jubilee troupe has promised to be in attendance.

**Taken to Wappinger's Falls for Burial.**  
The remains of the late Frank G. Smith, who died suddenly, Wednesday at his home on Albert street, were taken to Wappinger's Falls, this morning, for interment.

**Turf and Horse Notes.**  
Mr. Robert Lemon's fast mare, Nora L., starts in the 2:27 class, at Fleetwood, to-day.

**How to be Handsome.**  
It is a mistake to suppose that the only way to be good looking is to be born so. Good health has more to do with good looks than anything else. Such diseases as constipation, dyspepsia, liver complaints, rheumatism, nervous disorders, &c., not only shorten life, but spoil tempers and "looks." Bacon's Celery King for the nerves cures these troubles. John J. Chambers sells it and will give a sample package free.

Not one complaint has ever been made by those using Ayer's Sarsaparilla according to directions. Furthermore, we have yet to learn of a case in which it has failed to afford benefit. So say hundreds of druggists all over the country. Has cured others, will cure you.

INCIDENTS AND HAPPENINGS IN GOSHEN.

Song Recital and supper—A Runaway—To-morrow's Great Ball Game—Other Notes.

From Our Regular Correspondent.

—The song recital and supper at the Goshen Institute, last evening, for the benefit of the organ fund of the First Baptist Church, of Middletown, was attended by about 125 persons, seventy of whom came down from Middletown in two special cars. There were seven numbers on the musical programme, which were well rendered by Miss Ethel, Prof. Goldthwaite's accomplished daughter. She was accompanied by Mrs. W. H. Wyker. The supper, generous in quantity and fine in quality, was served under the personal direction of Mrs. Goldthwaite.

—A lively runaway occurred, last night, during the band concert. Two teams were racing down Main street, and Geo. W. Murray's team was in front of them. One of the teams succeeded in passing Mr. Murray's carriage, but the other one, while in the act of passing, collided and scared Mr. Murray's horses, which started and ran away. They ran from in front of the engine house to Murray avenue, where they were stopped by the driver. Mrs. Murray and daughter, May, were in the carriage, but were not hurt. A few spokes were broken from Mr. Murray's carriage. The other wagon was badly damaged.

—The final arrangements have been completed for the great ball game, to-morrow, between the Florida and Goshen Clubs. There will be little or no kicking in this great game, and if Mr. J. C. Degnan gives good satisfaction as umpire he will undoubtedly be in great demand for all future games of this kind. The game will be called at 2 p. m., sharp.

**For the Protection of Partridges.**  
The *Ensign* says that partridges are numerous in the vicinity of Livingston Manor and that an organization has been formed to protect the birds from those who have been in the habit of snaring them. The members have been divided into committees who will watch the depot for shipments and the woods for forsnare. Any one caught violating the law will be prosecuted.

**A Painful Injury.**  
Yesterday afternoon, Mrs. J. L. Wiggins, while using an ice pick, had the misfortune to strike her hand, the sharp teeth of the pick passing between the knuckle joints of the first and second fingers and running nearly through the hand.

The injury is a painful one and it will doubtless be some time before Mrs. Wiggins will be able to use her hand.

CONCURRENT RESOLUTION. Proposing an Amendment to Section Three of Article Two of the Constitution, relating to the Qualifications of Voters. The People of the State of New York, represented in Senate and Assembly, do enact as follows:

He Objected.

John Kernell, the Irish comedian, closed his season on the road early last year and went into New York city to spend the summer. He put up at a hotel there, and one night through some mistake the clerk put opposite the number of Kernell's room a "call" for 6:30 a. m. The hotel had in its service one of those vigorous porters who will break in a door rather than allow a man to oversleep on a call, and this man was so persistent that Kernell finally arose and dressed himself in order to put a stop to the racket. When he went down stairs, he saw by the clock that it was just 7.

"There," he said to the clerk in angry tones, "why do you wake me up at this hour in the morning when I have nothing to do until August 1?"—Argonaut.

An Afterthought.

"He—I never saw anything like this tide. Here I've been pulling steadily for ten minutes and we don't seem to have moved a foot."

She (after a pause)—"Oh, Mr. Stroker, I've just thought of something—the anchor fell overboard awhile ago and I forgot to tell you. Do suppose it could have caught on something?"—Truth.

Modern Style of Vindication.

From outside the church building came the loud muttering of an angry mob. Rev. Dr. Havighswold, the pastor militant, adjusted his necktie.

"Are the windows barricaded?" he asked.

"No," answered the deacon. "Two Irish plunk all over 'em and a committee at each window with bricks in case of emergency."

"Locks on the doors all right?"

"Two new ones and double bars across 'em."

"How about them forcing their way in through the vestry with a long pole?"

"We've got a special committee with clubs and hot water to care for that."

The Rev. Dr. Havighswold, pastor militant, gave a nod of satisfaction.

"I am rejoiced to learn," he said, "that arrangements are so well perfected. These divisions in churches are to be deprecated, but they must not try to put me out by force. If my faithful supporters are in their seats," he added, "we will now begin services."

A Matter of Personal Rights.

"How is this?" demanded the conductor savagely. "You have 18 children, and they are all trying to travel on half tickets."

The man and woman addressed looked at each other and a flush that suggested that they were guilty of trying to windle the railroad once to their chucks, but they made no protest.

"How does that girl look there?" continued the conductor, pulling his tawny mustache.

"She will be 12 the 2d of November," replied the woman, hearing it out on her lips.

"And now old is that boy, next her?"

"He'll be 16 the 27th of November," he replied.

"How old is that girl back there?" continued the conductor.

"She'll be 12 the 2d of November," replied the woman, hearing it out on her lips.

"And now old is that boy, next her?"

"He'll be 16 the 27th of November," he replied.

## THE COMMON COUNCIL.

PROCEEDINGS OF AN ADJOURNED SESSION LAST NIGHT.

A Franchise for Bonnell and Stanton Streets Granted the Traction Company—Plain Talk About Street Work from Mr. Hirst—Route of Highland Avenue Extension Not to Be Changed.

An adjourned session of the Council was held last evening, present, Aldermen Funnell, Hirst, Mance, Reed and Sinsabaugh. Mr. Reed, as president pro tem, called the meeting to order at 8:15.

Over a quarter of an hour was consumed in reading the minutes and Mr. Reed was about to declare them approved when Mr. Hirst said he did not see how the minutes could be approved until the next meeting, as that portion of the minutes read was only part of a continuous meeting and should be read and acted upon at the next regular meeting.

Mr. Reed said Council could approve the minutes if it wanted to.

Mr. Hirst thought it unnecessary. A new resolution granting a franchise for Bonnell and Olive streets to the Traction Co. was substituted for the original resolution, the only change being a correction in the affidavit of publication accompanying the resolution.

President H. W. Wiggins, of the Board of Education, stated that the Board expected to be able to present plans and estimates for a new high school building but was unable to do so.

Mr. Wiggins, as attorney for the Traction Co., said that the Erie Railway Co. wanted some guarantee that the proposed route of the Traction Co. would become a public highway of the city before giving its consent for the construction of a bridge over its tracks for the Asylum extension. He offered a simple form of resolution agreeing to accept said street to Monhagen avenue when the bridge is completed and the street laid out graded to the satisfaction of the Street Committee through the lands of Vail & Tucker.

THE FRANCHISE GRANTED FOR THE ASYLUM LINE

Under the head of unfinished business Mr. Hirst called up his resolution granting a franchise to the Traction Co. on Bonnell and Stanton streets.

The roll was called and the resolution was adopted, all voting aye.

The resolution agreeing to accept the low street from Lake avenue to Monhagen avenue was read.

Mr. Funnell thought the width of the proposed street should be stated in the resolution.

Mr. Sinsabaugh and Mr. Hirst thought the clause requiring the approval of the Street Committee, was sufficient protection.

Mr. Funnell thought the matter ought to lay over.

The resolution was finally adopted without opposition.

A request for a question for the Recorder's chair, a bottle of ink and one dozen chairs for the Recorder's office was read.

Mr. Hirst wanted to know if there was any money in this fund. Some accounts are now overdrawn, he said, and he thought it well to know "where we are at."

The Clerk reported that there was \$86 in the fund.

The matter was referred to the Police Committee.

PLAIN TALK FROM MR. HIRST.

Mr. Hirst called the attention of the Street Committee to the condition of Hanford and West Main streets. There is danger of accidents and suits for damages. He said these streets were not the only ones needing improvement. He considered the streets a disgrace to the city. It was time something was done. If the Mayor will not get the material, the Street Committee should take the matter in its own hands.

Mr. Mance wanted to know what Mr. Hirst would put on the street.

Mr. Hirst—"I am not on the Street Committee. I offered a resolution to get a washed stone; you referred the matter to the Mayor and nothing has been done." He said he did not expect to have anything done that he asked, but it was his duty to state the facts and he was tired of complaints made to him of the condition of the streets. Seven thousand dollars had been appropriated for street work and nothing is being done. Soon frost will come and then nothing can be done.

Other members of the Council had nothing more to say.

THE HIGHLAND AVENUE EXTENSION.

Mr. Hirst then called up the petition requesting that no change in the line of the Highland avenue extension be made.

After the reading of the petition Mr. Hirst moved that the matter be referred to the Street Committee.

Mr. Mance, of the Street Committee, said that he knew that the committee would oppose a change and he moved that it be the sense of the Council that no change in the line of the street be made.

Mr. Sinsabaugh said he thought some more definite action should be taken, and moved that a special committee be appointed to confer with the Highway Commissioners of the town of Walkill and Mr. Miller.

Mr. Mance's motion, voicing the sentiment of the Council as opposed to a change in the street line, were finally passed.

A petition from the residents of

North street, from Wisner avenue to the city limits, asking that the walks on both sides be flagged, was referred to the Street Committee.

A crosswalk was ordered across North street at Blake's store, and another at the junction of Fairview and Vail avenues, on Monhagen avenue. Council then adjourned.

THE WAY OF THE TRANSCRESSOR.

Thirty Days for Sleeping in a Barn—Ten Days for Drunkenness—Reprimanded.

John Kane was sentenced to thirty days in Goshen jail by Recorder Bradner, this morning, on a charge of vagrancy. He has been sleeping in a barn on Cortland street, much to the annoyance of the owner of the premises and the neighborhood generally.

John Phillips, tramp, went down for ten days. He was begging in the streets and got enough money to purchase a first-class "jag." He had no recollection of his tussle with the officer who arrested him.

A Slate Hill man, who formerly was a frequent visitor at police court, made his first appearance there, this morning, in six years, charge, intoxication. He was discharged with a reprimand.

NORWICH BAPTIST CHURCH QUARREL.

All Differences to Be Submitted to Arbitration.

Through the efforts of Rev. C. A. Fulton a basis of arbitration in the Norwich Baptist Church quarrel has been agreed upon. All matters in dispute are to be referred to a committee composed of one clergyman and two laymen from every church in the district and a clergyman and two laymen from outside the district. The decision of the committee is to be final and all rights of appeal are to be waived.

Changes in the Lehigh and Hudson Freight Department.

The appointment of Morris Rutherford as General Freight Agent of the Lehigh and Hudson has been announced. Mr. Howard G. Pierson succeeds Mr. Rutherford as Assistant Freight Agent. Mr. Pierson is a Middletown boy and his many friends here will be glad to hear of his well earned advancement.

Onions a Big Crop.

From the Warwick Advertiser.

A gentleman from Florida in town this week says that his onion land is yielding an average of about 375 bushels to the acre. This is very large. But the price of onions just now is so low that instead of putting them on the market the onion farmers are storing them for a rise.

"O'Hooligan's Masquerade."

Gallagher and West and W. B. Watson are a trio of comedians that cause heaps of merriment in the farce comedy success, "O'Hooligan's Masquerade," which will be seen at the Casino, to-morrow evening. The company includes a host of pretty girls and talented comedy stars.

The Canal Reservoirs Empty and Navigation Suspended.

A gentleman of this city who was in Sullivan county, yesterday, says that the ponds that feed the D. and H. canal on the seventeen mile level are so low that it is no longer possible to supply water enough to float the boats and that traffic has been suspended.

"A Midnight Frolic."

This play is presented by one of the cleverest companies in existence, every one of them being especially selected for their adaptability in portraying the character they represent. The star, Miss Lillian Kennedy, is the brightest ingenue soubrette in America, and in this comedy she has a role which gives full scope to her wonderful versatility.

Mr. Hirst would put on the street.

Mr. Hirst—"I am not on the Street Committee. I offered a resolution to get a washed stone; you referred the matter to the Mayor and nothing has been done." ## A NOBLE LIFE

SPENT FOR AND WITH SUFFERING WOMEN.

A Life's Work Perpetuated through a Faithful Daughter, and Records of Priceless Value.

[Special to our Lady Readers.] What a vast amount of misery and suffering has been prevented by the clear-headed foresight of one noble woman! She had struggled, labored, and sacrificed for the welfare of her sex. The eyes of the women of the world were upon her.

As she recalled the past, and tried to penetrate the future, a smile of supreme satisfaction passed over her honest face as she remembered that her life's work would be perpetuated.

The room in which she sat contained hundreds of volumes of records; and, turning to her daughter, she said—

"My daughter, this room, as you well know, contains the records of my life's work, in which for many years you have so diligently assisted me."

"By earnest application you have compassed my methods; and it is a happiness to think that when I leave, the glorious work will, through you, go on."

"The mission is a noble one. Do as I have done; never permit a woman's appeal to go unheeded."

"These records tell of every case ever submitted to me; and it is my wish that the facts they contain shall in time prove a much-needed education to the women of the world."

Thus did Lydia E. Pinkham hand over to her daughter, Mrs. Charles H. Pinkham, what may be termed the salvation of her sex; and that wonderful remedy, Lydia E. Pinkham's Vegetable Compound, which all druggists consider as standard as flour, goes on redeeming hundreds of women from the fearful consequences of female disease.

## THE PAVING MUDDLE.

Council Cannot Act On the Mayor's Veto To-night—A scheme to Get Even With His Honor by Paving Wickham Avenue and Leaving East Main Street Unimproved.

There is a general impression that the Common Council at its meeting, to-night, will take action on the Mayor's veto of the East Main street and Wickham avenue paving resolutions and that the resolutions will be passed over the veto. Such, however, is not the case. According to the charter, the Council cannot take action on the veto until the next regular meeting, which is Thursday evening of next week.

Those who profess to know the inside workings of the Republican machine say the Council will not dare to override the Mayor's veto, and thus bid defiance to the "boss." There are others, however, who believe the Council will pass the Wickham avenue resolution and take no action whatever upon the East Main street job, which they regard as the Mayor's pet scheme, if he can have it done as he wants it, and thus get square with him for his snare in preventing the passage of Mr. Mance's resolution to pave Wickham avenue early in the season.

It is certain that unless some action is taken, soon, no paving will be done, this year. Even if the paving is ordered at the next meeting it will be so late before the work can be commenced, that it is doubtful if a good job could be done, as the pavement should be laid early enough in the season to allow the interstices between the bricks to be filled before frost comes. Perhaps the wisest thing to be done at this late day would be to abandon the idea of paving this year.

## THE K. OF P. CLAM BAKE.

One Thousand People Fed by Lancelot Lodge and Not a Complaint Heard.

The evening bake at the park, last evening, was served promptly on time, and, like the noon bake, was as near perfect as it was possible to make it.

Over 1,000 people were fed at the two bakes. That was the number for which provision was made and as everybody had all he wanted, it is readily seen the committee made a generous allowance.

Thus far we have failed to hear a single complaint of any kind, something very remarkable on such an occasion. There certainly was no cause for a complaint and it is difficult to see how even a chronic grumbler could manufacture one.

The committee in charge of the bake, and to whom credit is due for the excellent management, was as follows: J. T. Robertson, Geo. E. Gillen, O. E. Decker, Harmon Miller, William Herman, John E. Corwin, Ed DeWitt, George Edwards, C. H. Emde and J. J. Cox.

When the Knights want to give another bake, they will only have to announce that it will be managed in the same way this one was to insure a much larger patronage than on this occasion.

When she had Children, she gave them Castoria.

## THE WHEELMEN'S MEET.

Some Good Sport After Referee Mills Had Called Down Out of Town Wheelmen—The Time Limit Brought Them to Terms—Accident to Walter Weeks—Summary.

The Middletown Wheelmen's race meeting, held at the Campbell track, yesterday afternoon, while not a great financial success, afforded considerable good sport, but not until Referee J. J. Mills asserted his authority and gave the visiting contestants to understand that he was master of the situation.

The men refused to ride up to their capabilities and loafed around the track in a bunch until the head of the stretch was reached when a sprint would be made for a few hundred yards.

The trial heats of the half mile open were run in 1:30 and 1:40, and this by men who hold records close to the minute mark.

Referee Mills placed a time limit of 1:10 upon the final heat, which was won by Bert Ripley, of Belmar, N. J., in 1:18.

The referee decided that as the race had not been run in the limit, it was no race and had to be run over.

This decision did not please the riders who sulked to a man. They enlisted the sympathies of the other riders on the track, and a perfect farce resulted in the one mile open race.

A time limit of 2:35 was placed on this race and six men started. They loafed for seven furlongs of the distance and came down the stretch together, all crossing the wire in a dead heat, the time being 2:35.

The referee called them to the stand and gave them to understand that he would not be trifled with, and the race was ridden over. Bert Ripley won handily in 2:30, Joe Harrison second, Ray Dawson third.

The referee's determined attitude had a salutary effect upon the riders and the two mile handicap proved a splendid race.

Ray Dawson, who had been unable to win a prize, gave his field handicaps up to 230 yards. He caught the bunch at the end of the first mile, carried them around the third half and won in the easiest possible manner in five minutes.

The half mile final was then run over. Ripley the winner in 1:18, refusing to start, Joe Harrison took first prize in 1:11. W. A. LaDue, second, Chas. Wheeler third.

Walter S. Weeks had a bad fall in the one mile Orange county championship race. His right arm was badly bruised and skinned, but he rode in both the one and two mile handicaps, although he failed to get a place.

The summaries follow:  
One Mile Novice—Oranabee, first; Horton, second; VanSickle, third. Time 2m 43s.  
Half-Mile Open—Larkin, first; Wise, second; Wheeler, third. Time 1m 28s.  
Ripley, first; Harrison, second; LaDue, third. Time 1m 18s.  
Final Heat—Harrison, first; LaDue, second; Wheeler, third. Time 1m 18s.  
One Mile Orange County Championship—Wheeler, first; Smith, second; Hulse, third. Time 2m 28s.  
One Mile Handicap Open—LaDue, first; Wise, second; Dawson, third. Time 2m 21s.  
Half-Mile (boys under 16 years)—Hatchbrook, first; Smith, second; Nadin, third. Time 1m 17s.  
One Mile Open—Ripley, first; Harrison, second; Dawson, third. Time 2m 30s.  
Two Mile Handicap—Dawson, first; LaDue, second; Hardier, third. Time 5m.

**"YELLOW DOG FOR SALE."**

Now, so very many years ago, when we were boys, the above notice attracted our attention, and a few days later, by the exchange of a pack knife, we became the proud possessors of the aforesaid animal.

Looking back at this transaction through the mists of nearly twenty-five years, we are absolutely sure the man who owned him took a base advantage of our boyish confidence. That dog was the meanest, most unscrupulous, sneaking, cowardly cur that ever drew the breath of life. He would bite only when he was sure that he was not being watched, and when one was not looking and after a snap and snarl, with his narrative twist his legs, ran to cover. He would never stand and fight. He was never known to make a full grown cat, but he took great delight in killing little kittens or chickens. If a dog as big as himself showed up he couldn't be found for two hours after. He was thrashed by his narrative twist his legs, ran to cover. He would never stand and fight. He was never known to make a full grown cat, but he took great delight in killing little kittens or chickens. If a dog as big as himself showed up he couldn't be found for two hours after. ## ROBERT J. THE WINNER.

The Champion Pacer Gets Another Race to His Credit.

### WON IN THREE STRAIGHT HEATS.

A Crowd Various Estimated at Twelve to Eighteen Thousand Witness the Great Event—Gentry Takes Second Place and Mascot Third.

New York, Aug. 30.—The number present at Fleetwood Park yesterday is conservatively estimated at 12,000 and some enthusiasts place it as high as 15,000. The experts of the clubhouse and amphitheatre were fully taxed and hundreds crowded the quarter stretch and infield. The attraction was, of course the contest between the champions of the paces, Joe Patchen, Robert J. Gentry and Mascot. Mascot drew the pole and they went to the quarter in 31 seconds. Robert J. a good length in the lead. The heat was reached in 1:02, the positions being relatively the same. Going up the hill, the third quarter Joe Patchen made a disastrous break just as Gentry was preparing to make his drive. Robert J. now took the lead and the heat was over. Mascot came on and assumed the lead, gaining an advantage of at least five lengths.

Robert J. quickly recovered, however, and as he felt the electric touch of Ed Geers along the reins he came like a meteor, rapidly overtaking Mascot and winning amid great applause.

In the second heat Joe Patchen dashed the hopes of his backers by a bad break after getting the word. When he recovered he was hopelessly out of the hunt, and Gentry wisely gave him an easy mile. Again Robert J. swung out in the lead, both Gentry and Mascot hanging to his flanks with a grip that he could not shake off. They reached the quarter in 30 1/2 seconds, the intense interest of the crowd being manifested by a subdued murmur as the time was announced. Down the half the pace was quickened the second post being reached in 1:00 1/2. Still the two pacers were clinging to Robert J. side, and the three quarters post was reached in 1:31 1/2. At the distance flag McHenry, Gentry's driver, resorted to the whip, but he could not reach, and Geers guided Robert J. under the wire first by an open length in 2:01 1/2. It was the fastest heat ever paced or trotted on Fleetwood.

The race was now conceded to Robert J. The first part of the third heat was much like the others, except that Joe Patchen seemed to be an element, and the clip was even faster. Robert J. again assumed the lead, the others close up, and the first quarter was reached in 30 1/2 seconds. The horses were well bunched to the half in 1 minute. At the Point of Rocks, Joe Patchen stepped into Gentry's wheel, tearing the tire off. The former went to a bad break and was out of it. Gentry came on with a walloping sulky and beat Mascot for place. Geers pulled Robert J. to mere jog to let Patchen in, and finished in 2:01 1/2. Had he been driven out the mile might have been paced in 2:01 or better.

Li Hung Chang Promoted. STAMPAH Aug. 30.—Li Hung Chang had an audience with the emperor yesterday and as a consequence will remain in Peking as grand secretary. ### FROM MEXICO'S CAPITAL.

Romero's Lawyers Endeavoring to Secure His Release on Bail.

CITY OF MEXICO, Aug. 30.—Pending the hearing of his appeal in the superior court, Colonel Romero is confined in the barracks. His lawyers have decided to ask for his release on bail until the court shall decide his case.

It is announced that Archbishop Corrigan will be here in October to attend the ceremonies of the coronation of the Virgin of Guadalupe. Archbishop Elder, of Cincinnati, has also accepted an invitation.

A concession is being arranged by ex-Governor Rabasa, of the state of Chiapas, and Jose Mora with the department of communications for a railway from Tonala, on the Pacific coast to the capital of the state, also to Chapa Buerco, on the river of the same name.

The reception of Minister Kurino, of Japan, was the occasion of utterances of the most cordial sentiment on the part of President Diaz and Minister Kurino. The Japanese government hopes to render still closer relations with Mexico which was the first nation to recognize the right of Japan to manage her internal affairs without foreign dictation.

The first superior court will take up the Romero Veretegul case Monday, the lower court trying the accused persons having sent the verdict of the jury to the superior court on the ground that the jury failed to render a decision according to law and the evidence. The superior court, it is thought likely, will support the judgment of the lower court and order a new trial of persons absolved by the jury.

### Corbett Defeated at Handball.

SCRANTON, Pa., Aug. 30.—Champion James J. Corbett and his brother Joseph played a match game of handball here yesterday and lost it. Their opponents were John Rickaby and Thomas Dove, local players of considerable repute. The game was played at the Driving Park, in the presence of 3,000 people, the stakes being \$500 and 75 per cent of the gate money to the winners. Rain fell during the entire game, making anything like an exhibition of skill impossible. The champion played listlessly, but Joe did his best. Corbett attributes his defeat to the bad ground, the kind of ball used and the side walls to the alley. He has challenged Rickaby to play on Corbett's own alley at Asbury Park and the challenge has been accepted.

## THE PRESIDENT'S COMPLIMENTS

To the Associated Press on Securing Direct Communication with Mexico. BUZZARD'S BAY, Mass., Aug. 30.—The dispatch announcing the establishment of a daily news service between the United States and Mexico by the Associated Press was shown to President Cleveland, and the interest of the chief magistrate of the United States was at once excited by the news.

After reading the dispatch Mr. Cleveland expressed great pleasure at the assurance of a more vital connection between the two countries, which, he said, would doubtless be productive of much good.

It is a cause for great congratulation," the president said, that the adjoining republics of the United States and Mexico are brought into closer communication through the enterprise of the Associated Press and I am sure this last demonstration of its advanced ideas as a news agency will result in great benefit to the people of both countries.

## Holmes Indicted in Indianapolis.

INDIANAPOLIS, Aug. 30.—The drug which which Howard Pitzel was killed before his body was burned in the big stove in the Irvington cottage has been found. A part of a bottle of cyanide of potassium was found buried in the barn. Boys digging under the Holmes house, in an unfinished portion of the cellar, found the two feet of Howard Pitzel. They had been burned but not destroyed and were evidently too bulky to put into the chimney hole. With the feet was found buried a five quart can. There was some coal oil in it. The grand jury has returned an indictment for murder against Holmes.

## No Prize Fighting in Mexico.

WASHINGTON, Aug. 30.—Judge F. B. Earnest, collector of customs at Laredo, Tex., who is in the city, was asked if the Mexican authorities would permit the Corbett-Fitz prize fight to occur in the boundaries of that republic, as indicated in dispatches. In reply Judge Earnest said: "President Diaz some time ago announced that no such meeting could be held within the borders of his government. What he said he will uphold. If necessary, he would head an army in person and break up the fight."

SAVANNAH, Aug. 30.—This city has been flooded with counterfeit two dollar bills. Some are of the series of 1880 and bear the picture of Hancock and it is difficult to detect them from the genuine. Others are of the series of 1891, bearing the picture of Winfield, and are more easily detected. It is the impression that counterfeiters are working them off in large quantities in this section of the south.

## Anarchist Trial Collapsed.

BENTON, Aug. 30.—The anarchist trial at Magdovurg has collapsed. Eight of the accused were acquitted and one was sentenced to two months imprisonment on a charge of inciting to bomb throwing. The president of the court declared that what ever their secret actions may have been there was no evidence of treasonable intentions. It is generally felt that the government made a mistake in prosecuting.

## AGAIN THE DEFENDER.

She Adds Another to Her List of Aquatic Victories.

### LEFT THE VIGILANT FAR AFTERN

A Race Fought in All Sorts of Weather Again Proves the Claim of Herreshoff's Latest Production to the Title of Cup Defender. Valkyrie Also Out.

New York, Aug. 30.—The second trial race between Defender and Vigilant over a triangular course, eight miles to the leg starting from the Scotland Lightship was one of the most interesting events that ever took place in New York harbor. There was all kinds of weather from almost a dead calm up to a blow of forty miles an hour. There were reaching close hauled sailing, running before the wind and free reaching before the race was over. The growing interest in yachting was proven by the large number of boats of all kinds that went outside the Hook to see the race.

Shortly after 11 o'clock the yachts crossed the starting line, the Defender be-

ing twelve seconds ahead. Both boats stood well off to the southward, which gave them a beam wind. For a couple of miles the breeze continued to blow at the rate of seven or eight knots an hour and they went ahead fast, the Defender continually gaining on the Vigilant, until, at the end of two miles, she had a lead of over half a mile.

At this time Valkyrie, who had come out from her berth inside the Hook, showed up in the open and undertook to chase the racers. She fell into the same breeze that the Defender and Vigilant had when they started, and she carried it with her down the course for two miles, when it collapsed. Defender and Vigilant had the breeze desert their some time before, and they were only standing still when the English boat nearly came up on them with a rush that was occasioned by the breeze which all had been favored with up to the northward, but which dropped at a point about two miles to the southward of the line.

The Valkyrie was carrying her monster mainsail and club topsail, as well as her jib topsail, which fully belonged to the same class of mammoth sails. When Valkyrie got down to within three quarters of a mile of Vigilant, and was half a mile to leeward and found herself in a practical calm she went about in a laboring way and headed for home. Experts who watched the English boat said that even in that very light air and the smoothest kind of a sea she made a good deal of a commotion from her bows, even more than Vigilant. Every official on Valkyrie from Lord Dunraven down to Ed Young, the pilot, was much more interested in the action of Defender than in that of their own vessel.

Even in the almost imperceptible breeze Defender made headway. Vigilant though she eased off sheets and tried to gather in the breeze on her mainsail in that way, could not pick up on her rival. The boats lagged along for almost two hours in that way. Defender continually gaining. Just before they came to the first mark Defender found it necessary to make a tack, by which she lost over half a minute. Vigilant came down for the mark straight ahead, but before the wind for the first eight miles, the result of which not only enhanced the good opinions of Defender, adherents, but made them wonder. At no time have Defender and Vigilant met in a run before the wind before when Vigilant has not beaten Defender. But yesterday the keel boat covered the eight miles in not only better time but gained the astounding advantage of two minutes and thirteen seconds.

After rounding the second mark a big black squall came out from the south southwest and went for the sails of the Defender. The course of the first leg was west by south, and the Defender had no sooner turned the mark than the gale was upon her. She stood it bravely and there was no inclination to take in her big club topsail. Mr. Iselin, Captain Hall and Nat Herreshoff all of whom were aboard were content to let the people see that they had a boat which could stand up in a breeze of wind. The sheet of her jib parted under the strength of the forty mile wind and within a minute that sail was in ribbons. Within three minutes the fragments had been a tumbled down and another new and whole sail set in its place.

The last leg was a close race for home. The Vigilant which had not been able to withstand the blow, took down her club topsail soon after rounding the second mark and shortly after withdrew her baby jib topsail.

The Valkyrie got a little piece of this squall as she was returning to her berth but Captain Cranford had hauled down all head sails and the prodigious club topsails. But it was said by the ship's crew who looked at her from Sandy Hook that with only her massive mainsail set, she heeled over enough to show that she is very tender for one so big.

Defender went on, fairly boiling through the water. There was a good chance for Defender to make a lively kick off from her bows, but her deck was on the level and her performance was simply marvelous. In the blow after it, when the wind dropped to about ten miles an hour and lasted at that strength up to the finish, Defender went on increasing the gap that was between her and Vigilant. So it can be seen that, in every point of sailing,

even the run before the wind, with spinners set, and in all strength of breeze the Defender not only outstripped the Vigilant, but beat her almost ridiculously.

And yet the American cup committee does not seem to be satisfied that Defender is the better boat, for they ordered another trial race for today. Be that as it may, the following table will show how Defender beat Vigilant.

	Start.	First Mark	Second Mark	Finish
	H M S	H M S	H M S	H M S
Defender	1 20 2	2 01 0	3 16 1	4 19 0
Vigilant	11 20 4	2 01 7	3 24 0	4 28 2

Defender won by 18 min 3 secs, not counting the allowance, which has been estimated at 1 min 20 secs.

## HAWAII AND GREAT BRITAIN

Natives of the Islands Favor the Great European Power.

LONDON, Aug. 30.—Colonel MacFarlane, former aide de camp to the late King Kalakaua, has just arrived in London. In an interview he said that he was informed that a few Hawaiian politicians and merchants who favored the old form government would wait upon President Cleveland when congress reassembles to urge the annexation of the Sandwich Islands. The primary object, he said, would be to test the sincerity of the officials of the Hawaiian republic. A large number of Americans, he remarked, had joined the republican party in Hawaii, it being generally understood that the existing republic in the Sandwich Islands provided only for a temporary government until annexation to the United States could be arranged.

The present officials having been in office a year or more, and no special effort having been made to attain this end, the respecting the intentions of the present Hawaiian republic hence the projected application to the United States government for annexation.

In conclusion, Colonel MacFarlane explains that Mr. Cleghorn, the father of Prince Kaiulani is now en route to England, accompanied by ex Consul Wodehouse. It is believed that one of the objects of their visit is to present to the British government a full account of the situation of the Hawaiian islands, with a view of restoring the monarchy. Sailing, failing to bring about the restoration of the monarchy to which they naturally incline they would rather prefer annexation to Great Britain. Of course the American influence is in the ascendant, but the British influence is also large.

Colonel MacFarlane favored a permanent republic of the Hawaiian islands, the best elements of both parties forming a coalition for the support of the government. Failing such coalition, annexation to the United States would be the most advantageous commercially, but there is no doubt that if the vote were taken the natives, who constitute a majority would vote largely in favor of closer political relations with England.

During the course of the interview Colonel MacFarlane remarked that the United States had just made a demand for the payment of \$25,000 to an American named Durand. Some American claims, he said, would soon be presented.

## Cleveland Breweries to Consolidate.

CLEVELAND, Aug. 30.—It is said that negotiations have been in progress here for several days past looking toward the combination of all breweries in this city. A leading brewer stated to a local paper that he believed that within a few months at the outside every brewery in the city would be in the trust and under one management. It is also claimed that it is not the intention to raise the price of beer, but to do away with the backing now extended to saloonkeepers by the brewers, which consumes a large percentage of the latter's profits.

## An Indian Matricide.

STEELEVILLE, Ind., Aug. 30.—John Wrennack, aged 20, shot and instantly killed his mother. He had been drinking and quarreled with Mrs. Eva Nelson, who was at the Wrennack house. He threatened her and getting an old musket chased her out of the house. When she returned a Mrs. William Wrennack with a hatchet and a knife, and opened Wrennack and the entire load was emptied into his mother's breast and he felt it his duty to avenge her death. He did not know that gun was loaded.

## Twelve Prisoners Break Jail.

GENEVA, Ill., Aug. 30.—Twelve prisoners broke jail during the night. Two were captured but the others are still at large. They are named: Prisoner O'Brien, Arthur Clark, Ed. W. and Lewis Clancy, Fred Pung, Dan Hall, a negro John Smith, two men whose names are Kelly and Henry and one unknown. The escape was effected by breaking through the bars and forcing a bolt which opened thirteen cells. Accurate list put into every direction.

## To Prosecute the Tobacco Trust.

NEW YORK, Aug. 30.—Attorney General Theodore Tilton is preparing to bring suit against the American Tobacco company to annul the certificate authorizing it to do business in this state. The preliminary step was taken yesterday, when the officers were served with a summons to appear on Saturday in answer to a complaint that they are doing business in violation of statute.

## A Sailing Party Drowned.

HALLOWEEN, N. S., Aug. 30.—A dispatch from Charlottetown reports the probable loss of seven lives. Five men and two women went from Cape Build in a sail boat to Fifteen Points. They remained there with friends over night and late next day to return and nothing has since been heard of them. The supposition is that the boat foundered, and that all on board were lost.

## Surprised the Burglars.

NERSONVILLE, O., Aug. 30.—Burglars attacked the hardware store of Cable & Co. during the night, and broke through a window, but were met by several watchmen, who were expecting the burglars. Several shots were fired. The burglars escaped but James Knud, a clerk in the store, was fatally shot in the back.

## MANY MINERS DROWNED

Caught Like Rats in a Trap Near Central City, Colo.

### THIRTEEN MEN PROBABLY DEAD.

The Water Came Rushing Upon Them Before They Could Seek a Place of Safety. The Accident Due to the Neglect of the Mine Managers.

CENTRAL CITY, Colo., Aug. 30.—The accidental flooding of the American and Sleepy Hollow mines yesterday afternoon caused the death, it is believed, of thirteen miners. Every effort is being made to rescue the unfortunate men, but little hope is entertained. A little after 3 o'clock the water in the lower workings of Fish mine, east of the main shaft, broke through the old workings of the vein, that has not been worked for a number of years. Coursing eastward, it struck the Americans where two Italian miners, whose names have not been learned, were at work in the lower part of the shaft. They were both drowned. In its course the water diverted to the Sleepy Hollow mine, the easterly portion of the Fish mine. Fifteen men were working in the Sleepy Hollow, three of whom escaped. A courier was sent to the adjacent mines and all their workmen escaped.

In the Sleepy Hollow, whose escape was shut off, were the following: N. Vegas, B. Brocken, Brower, Brisk, William Brisk, Thomas Pease, Thomas Williams, H. L. Lavo, Thomas Colbus, J. Harris, S. Vallero and John Parks.

The sounding of the whistle gave the first signal of distress, and soon the shaft building of the Sleepy Hollow mine was so crowded with the families and relatives of the imprisoned miners, and those wanting to give assistance, that it was almost impossible for the work of rescue to go on. Sheriff Williams finally arrived on the ground, the building was cleared and practical miners offered their services in lowering the bucket. The farthest depth attained was 330 feet, the accumulated gas forced up by the rising water being such that a candle would not burn at a greater depth. A second effort was made, a larger sized safety lamp having been placed in the bucket.

The first rescuer who descended in the bucket found Mr. Brisk at the 330 foot level. On reaching the surface he was almost in an insensible condition. Another man went down afterward, but was unsuccessful in reaching a lower point in the shaft, owing to the rising of the water. The managers of the property were on the ground and were very assiduous in their efforts to relieve the men. The two in Americans are without doubt dead. Those in the Sleepy Hollow, unless they can be found in some out-hole, have met death in a similar manner.

Ever since the closing down of the pumps in the incline shaft of the new Gregory Mining company the waters in the shaft have been gradually rising, the Fish mine having been driven out of the lower to the upper workings. This was due to the inability of the owners of the Fish and Sleepy Hollow to agree upon a plan to prospect the drainage.

## An Exile Imprisoned in Germany.

DECEMBER, Ind. Aug. 30.—H. M. Romberg, a prominent liveryman of this city, left here about ten months ago to visit his old home at Hamburg, Germany. Word has just been received here that he has been taken by the German officials and sentenced to twelve years imprisonment. The crime with which he is charged is that of whipping an official in the army prior to his coming to this country. Romberg came here about twelve years ago, and has during his stay here accumulated quite a fortune. He is a prominent member of the Democratic county central committee. He has a wife and five small children here, who are wild over the news.

## Delaware's Ex-State Treasurer Dead.

NEW CASTLE, Del., Aug. 30.—Ex-State Treasurer William Herbert died here yesterday afternoon, after a long illness. He was born in Philadelphia in 1829, and was one of the best known Democratic politicians in this state. In 1890 he was elected sheriff of the county, and during the famous Colver Keller murder case in the following year Mr. Herbert stood up to the ring near Newark and stopped the fight. He was prominently mentioned for the gubernatorial nomination in 1893.

## Smalley Was Not a Criminal.

MCBRYEN, Mich., Aug. 30.—A letter has been received from Mr. Smalley from J. C. Anderson of Brenton, which seems to show that her husband John Smalley, who was killed while resisting arrest, was neither one of the Chicago and West Michigan train robbers, nor the murderer of Detective Powers. Reputable citizens of Brighton have sworn to a complete alibi for Smalley and fifty other residents are willing to back up the affidavit.

## Captain Baldwin Not Killed.

WASHINGTON, Aug. 30.—Officers on duty at the war department regard the story telegraphed from El Paso, O. T., that Captain Baldwin of the Fifth Infantry, acting Indian agent at the Comanche and Apache agency, had been killed by Indians as a "fake" pure and simple. If there was any truth whatever in the story they think that the department would have been notified of it long before this.

## Durant Jury at Last Secured.

SAN FRANCISCO, Aug. 30.—The work of completing a jury to try Durant was ended yesterday by the acceptance of Samuel F. Dutton, a wholesale grocer. Both sides joined in a request for an adjournment until Monday, which was granted.

## The Atlanta Exposition Oration.

ATLANTA, Aug. 30.—Hon. Henry Spooner, United States judge for the southern circuit of Georgia, has been chosen orator for the opening exercises of the Cotton States and International exposition, and has signified his acceptance of the invitation.

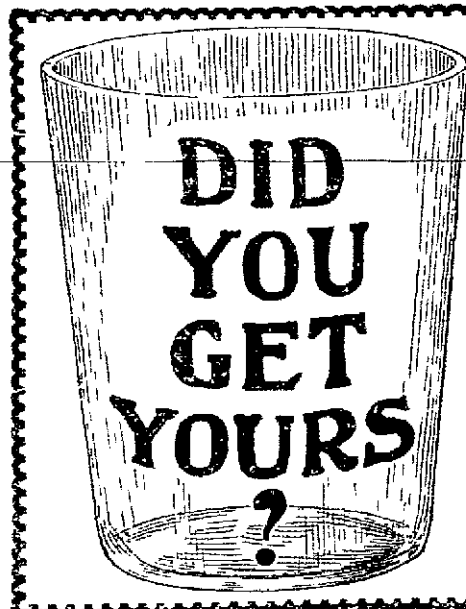

**Let the men wash,**  
if they won't get you Pearlina. Let them  
try it for themselves, and see if they don't  
say that washing with soap is too hard  
for any woman.

This hard work that Pearlina  
saves isn't the whole matter; it saves  
money too—money that's thrown  
away in clothes needlessly worn out  
and rubbed to pieces when you wash  
by main strength in the old way.  
That appeals—where is the man who  
wouldn't want to have the washing  
made easier—when he can save money by it?

**Beware**  
of cheap imitations. The genuine Pearlina is as good as the name. Pearlina is a  
FALSE—Pearline is never peddled if your grocer sends  
you an imitation. Be honest—send it back.

# RETURN TO PROSPERITY.

The Lengthening List That Have "Gone Democratic."

Following are some recent increases in wages.

National Switch and Signal Co., East-  
ern Pennsylvania, 200 employees, increase  
ten per cent.

Tippett and Wood, boiler makers,  
Phillipsburg, N. J., increase 10 per cent.  
Bigelow Carpet Co., Clifton, Mass.,  
1,000 employees, 10 per cent increase, res-  
toration to the schedule of two years ago.

White & Boggs, Philadelphia weavers,  
have signed the advanced scale de-  
manded by their employees.

Chambers-McKee Glass Co., New Ken-  
sington, Pa., employing 1,000 men, week-  
ly wages amounting to \$12,000, ten per  
cent advance in wages.

Boston Mfg. Co., 1,300 employees, in-  
crease ranging from four to ten per  
cent.

Watertown Steam Engine Co. 300 men,  
Remington Paper Co., 400 men, 10 per  
cent increase.

Haywood & Co., shirt manufacturers,  
Elizabeth, N. J., will semi-annually di-  
vide net profit with the employees.

The Milford Shoe Co., Milford, Mass.,  
announces an increase of pay to the op-  
eratives on consolidated lasting ma-  
chines. On some grades of work it is  
a raise of eleven per cent and on others  
twenty-two per cent.

## THE ARROGANT MACHINE.

Indignation at Its Insurrection is Wide-  
spread.

Indignation of conscientious Repub-  
licans at the prospective re-nomination  
of John Barnes in the Ontario-Wayne  
Senate district seems to be increasing,  
and there is every probability of an  
independent candidate taking the same  
against him.

At the behest of the machine Senator  
Stapleton and his friends have been  
turned down in the Oswego-Madison  
district, and Nevada N. Stranahan, a  
Platt henchman, will be nominated for  
the Senate.

Senator Coggeshall is not the only  
Republican Senator who has been or-  
dered retired. Senator George W. Rob-  
ertson of Westchester announces that  
he will also do so. The regulars in that  
district will nominate the notorious J.  
Irving Burns, author of the bill to in-  
validate the civil service.

Rochester Republicans are in revolt  
against the bossism of Superintendent  
Aldridge. Dr. Richard Curran, an ex-  
mayor, will be defeated in the regu-  
lar caucuses, it is thought, run as an in-  
dependent candidate on the platform of  
municipal reform.

## The Democratic Outlook.

Speaking of the Democratic outlook  
Senator Hill said the other day. Last  
year we had to lasso candidates into  
accepting. This year it looks as if we  
should have to get out an injunction to  
keep their eagerness within due  
bounds.

C. R. De Freest, clerk of the State  
Committee, who is a well-known shrewd  
observer of political events tells every-  
body that he hears of every hand the  
expectation of Democratic victory—and  
he means it, too.

Ex-Governor Flower sums up the rea-  
son why Democratic victory is prob-  
able this fall in this characteristic way.  
"Returning prosperity hasn't hit every-  
body yet, but the tax collector has.  
That and the record of their legislature  
alone would defeat the Republicans this  
fall."

## A Red Hot Contest.

The struggle in the new 15th senator-  
ial district over the senatorship is in-  
creasing in bitterness. The Republican  
machine has slated ex-Senator Ed-  
worth to succeed Senator Pound, in re-  
sponse, it is said, to direct orders from  
New York. The anti-machine element is  
making a gallant fight for Assemblyman  
John H. Clark, who is fairly entitled to  
the nomination but has been shut out  
because he would not obey the Platt  
machine orders.

## A Characteristic Trick.

Postmaster Northrup, of Syracuse,  
said in Albany the other day that the  
Herdicks-Platt people have put up a  
very characteristic job on the opposi-  
tion in their own party. The anti-haves  
just discovered that the call for State  
and county caucuses includes a call for  
election of delegates to the city conven-  
tion also. The opposition to the ma-  
chine is naturally extremely indignant  
and is likely to make itself felt at the  
polls.

## A Very Unfortunate.

Here is the consolatory way the prin-  
ciple Republican organ in this State, the  
N. Y. Tribune, puts it.

"It is unfortunate that necessity com-  
pels heavy taxation at a time when in-  
dustries and incomes have not yet fully  
recovered from hard times."

It will be found especially "unfortu-  
nate" for the cause of the increase—the  
Republican party.

## Placing Him.

She turned upon him imperiously.  
"What have you to say for yourself?"  
The dude covered before her alashed,  
and then passed through the door with-  
out a word.

She shook her head sadly.  
"Once more is the old saying verified,  
"It goes without saying."  
She gently locked the door behind  
him—Truth.

## Willie's Ambition.

School Teacher—If you had your  
choice, Willie, would you rather be as  
wise as Solomon, as great as Julius Cae-  
sar, as rich as Croesus or as eloquent as  
Demosthenes or as tall as Goliath?

Willie—I'd rather be a drummer in a  
brass band.—Truth.

## Expensive.

Rounder—This has been a very ex-  
pensive summer for me.

Sounder—I thought you sent your  
family away on a f. in somewhere.

Rounder—So I did. But I stayed in  
town.—Philadelphia Record.

## Woman Ahead.

One of the Springfield census enu-  
merators is a woman. She alone of the  
whole force employed finished her duty  
in the specified time. In any kind of  
reckoning nowadays woman counts.

## SUGGESTIONS OF NEWS

taining about 1,000 inhabitants, has been  
destroyed by fire.

taels as indemnity for the relinquishment  
of the Liao Tung peninsula.

is officially reported that 20,000 deaths  
from cholera occurred in Peking in August.

insuring a raise in the wages of glass  
workers.

Ohio River railroad, was run down by  
a train at Ripley, Ind., and killed last  
night.

Paul Webb, went down a 175 foot chas-  
se in a barrel at Spots. Wash. Last  
night he died from injuries received at  
that time.

A London dispatch says that 4,000 ad-  
ditional laborers have joined in the Dup-  
ree mill workers' strike. It is estimated  
that fully 3,000 persons are now idle be-  
cause of this strike.

## Princess Colonna's Troubles.

NAPLES, Aug. 30.—The case of the  
fresh troubles between the Prince and  
Princess Colonna is the fact that during  
the prince's visit to London, in June, the  
prince obtained control of the boys, and  
when the princess returned he refused to  
give them up. As the court gave the  
mother control of the children a year ago,  
each year, the princess applied to the court  
for redress, which ordered the surrender  
of the boys to the mother. The prince  
refuses to give them up and proceedings  
are now taken to enforce obedience. The  
prince is authorized by the statement that  
she will not give one cent, now or in the  
future for a settlement.

## Girl Miners in Pennsylvania.

SAVOIN, Pa., Aug. 30.—It has just  
been learned that four athletic young  
girls find daily employment at a small  
colliery in the Mahanoy valley, seven or  
eight miles from this place. The colliery is  
owned and operated by Joseph Maus, a  
hard working German, and his daughter's  
assist him. Katie, aged 20 years, has  
charge of the breaker, Annie, aged 16,  
runs the mine pumps and breaker engine,  
Lizzie, aged 15, drives a mule attached to  
a gin and Mary, aged 19, sees that the  
slate is picked from the coal by her little  
brothers, whom she helps in the work.  
The girls wear short skirts.

## Knight Templar Elect Officers.

BOSTON, Aug. 30.—The Knights Templar  
conclave yesterday decided to hold the  
next convocation at Pittsburg in October.  
The following officers were elected:  
Grand master, William La Rue, Thomas  
of Mansfield, Ky., deputy grand master,  
Reuben H. Lord, of California, general  
issimo, Henry B. Stoddard, of Texas,  
captain general, George M. Meadon, of  
Illinois, senior warden, Henry W. Rugg,  
of Massachusetts, junior warden, Wil-  
liam B. Mench of Ohio.

## Bessell Declines a Judgeship.

BUFFALO, Aug. 30.—It is learned on  
reliable authority that ex Postmaster Wil-  
son Bessell has been offered the place  
on the United States supreme court bench  
made vacant by the death of Justice Jack-  
son. Mr. Bessell will not accept.

## Fell from a Scaffold to Death.

WILKESBARRE, Pa., Aug. 30.—William  
Edwards, head workman at the Clifford  
mine, Plymouth, fell from a scaffolding,  
a distance of thirty feet, and was  
killed.

## Fed Four Boys to Their Bears.

BUDAPEST, Aug. 30.—The Romanian  
travels and exhibitors of performing  
bears have been arrested in Debreczin in  
the Hauduck district of Hungary, charged  
with having fed their animals human  
flesh. In the course of their examination  
the men admitted that they had killed  
four boys cut their bodies into pieces and  
fed the bears with the flesh. The con-  
fession of the prisoners have aroused a  
popular indignation to the highest pitch.

## Workers Want Some of the Increase.

CHICAGO, Aug. 30.—The recent ad-  
vance in the price of bar iron has caused  
the puddlers to discuss wages again. The  
question in controversy is whether or not  
puddlers wages are to advance Sept. 1 to  
\$1.50 a ton, based on the average selling  
price of bar iron during July and August,  
or not until Oct. 1. The secretary of the  
Western Iron Manufacturers' association  
says the advance will not take effect until  
Oct. 1, but President Gulland, of the  
American Iron and Steel Institute, says  
wages should be increased Sept. 1. An  
other contention is necessary.

## Children Saw Their Mother Murdered.

CINCINNATI, Aug. 30.—Elizabeth Robert-  
son, a young girl, at Butler, Ky., cut  
her mother's throat in the morning and then  
cut her own. Her mother instantly died.  
The girl is fatally hurt. He is supposed to have  
been insane. The blood deed was wit-  
nessed by their three children, aged from  
1 to 3 years.

## Marie Burroughs Divorced.

SAN FRANCISCO, Aug. 30.—Marie Bur-  
roughs, the actress, was granted a divorce  
in the superior court yesterday from her  
husband, Louis F. Masson, on account of  
the latter's unfaithfulness.

## New York's Populist Nominees.

SYRACUSE, N. Y., Aug. 30.—The state  
convention of the People's party was held  
in this city yesterday. Thaddeus B.  
Wakeman, of New York, was nominated  
for secretary of state, David Rossman, of  
New York, for comptroller and other  
nominations were made. The platform  
adopted ratified the Omaha platform  
of 1892, declared for the free coinage of sil-  
ver, for a single land tax, for government  
ownership of railroads, telegraphs and  
telephones, for the south Carolina dis-  
pensary system of selling liquor, and  
against the issuance of interest bearing  
bonds.

# Narcoti-Cure

**Cures the Tobacco Habit**  
**in 4 to 10 Days**  
**or Money Refunded.**

Use All the Tobacco You Want Till Your  
"Craving" is Gone.

NARCOTI-CURE is the only remedy in the world that acts di-  
rectly on the nerves and drives the nicotine from the system in  
from four to ten days. It leaves the patient in better health  
than before taking, and is warranted free from any injurious  
ingredients.

NARCOTI-CURE is popular because it allows the patient to use  
all the tobacco he wants while under treatment, or until the  
"craving" and "hankering" are gone. It is then no sacrifice  
to throw away tobacco forever.

NARCOTI-CURE is sold at the uniform price of \$5 a bottle, and  
one bottle cures.

Money refunded if a cure is not effected when taken accord-  
ing to directions.

PROF. W. N. WHITE, If your druggist is unable  
of Amherst, Mass., Chewed Tobacco for  
46 Years, and Was Cured by Narcoti-  
Cure.

AMHERST, MASS., Feb. 8, 1895  
THE NARCOTI-CHEMICAL CO.,  
Springfield, Mass.

Referring to yours of the 1st,  
would say that I have used tobacco for 43 years,  
and of late have consumed a 10 cent plug a day,  
besides smoking considerably.  
I commenced to use tobacco when I was only 11 years old, and  
have never been able to give up the habit, until I  
took Narcoti-Cure, although I have tried other  
so called remedies without effect. After using  
your remedy four days, all "hankering" for  
chewing disappeared, and in four days more  
smoking became unpleasant. I have no further  
desire for the weed, and experienced no bad ef-  
fects whatever. I am gaining in flesh, and feel  
better than I have for a long time. To all who  
wish to be free from the tobacco habit I would  
say, use Narcoti-Cure.

Yours truly,  
W. N. WHITE.

Let the men wash, if they won't get you Pearline. Let them try it for themselves, and see if they don't say that washing with soap is too hard for any woman.

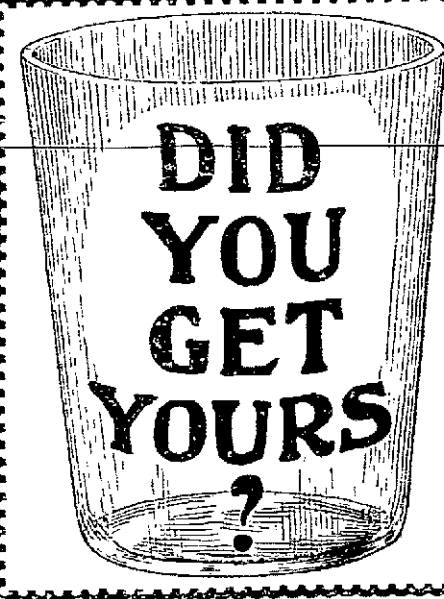

This hard work that Pearline saves isn't the whole matter; it saves money, too—money that's thrown away in clothes needlessly worn out and rubbed to pieces when you wash by main strength in the old way. That appeals—where is the man who wouldn't want to have the washing made easier—when he can save money by it?

### RETURN TO PROSPERITY.

The Lengthening List That Have "Gone Democratic."

Following are some recent increases in wages:

National Switch and Signal Co., Eastern Pennsylvania, 200 employees, increase ten per cent.

Tippett and Wood, boiler makers, Phillipsburg, N. J., increase 10 per cent.

Bigelow Carpet Co., Clifton, Mass., 1,000 employees, 10 per cent. increase, restoration to the schedule of two years ago.

White & Boggs, Philadelphia weavers, have signed the advanced scale demanded by their employees.

Chambers-McKee Glass Co., New Kensington, Pa., employing 1,000 men, weekly wages amounting to \$12,000, ten per cent. advance in wages.

Boston Mfg. Co., 1,300 employees, increase ranging from four to ten per cent.

Watertown Steam Engine Co. 300 men, Remington Paper Co., 300 men, 10 per cent. increase.

Haywood & Co., shirt manufacturers, Elizabeth, N. J., will semi-annually divide net profit with the employees.

The Milford Shoe Co., Milford, Mass., announces an increase of pay to the operatives on consolidated lasting machines. On some grades of work it is a raise of eleven per cent. and on others twenty-two per cent.

### THE ARROGANT MACHINE.

Indignation at Its Insurrection is Widespread.

Indignation of conscientious Republicans at the prospective renomination of John Raines in the Ontario-Wayne Senate district seems to be increasing, and there is every probability of an independent candidate taking the stump against him.

At the behest of the machine Senator Stapleton and his friends have been turned down in the Oswego-Madison district, and Nevada N. Stranahan, a Platt henchman, will be nominated for the Senate.

Senator Coggeshall is not the only Republican Senator who has been ordered retired. Senator George W. Robinson of Westchester, announces that he will also do so. The regulars in that district will nominate the notorious J. Irving Burns, author of the bill to invalidate the civil service.

Rochester Republicans are in revolt against the bossism of Superintendent Aldridge. Dr. Richard Curran, an ex-mayor, will if defeated in the regular caucuses, it is thought, run as an independent candidate on the platform of municipal reform.

### The Democratic Outlook.

Speaking of the Democratic outlook Senator Hill said the other day: "Last year we had to lasso candidates into accepting. This year it looks as if we should have to get out an injunction to keep their eagerness within due bounds."

C. R. De Freest, clerk of the State Committee, who is a well-known shrewd observer of political events tells everybody that he hears on every hand the expectation of Democratic victory—and he means it, too.

Ex-Governor Flower sums up the reason why Democratic victory is probable in this fall in this characteristic way: "Returning prosperity hasn't hit everybody yet, but the tax collector has. That and the record of their legislature alone would defeat the Republicans this fall."

### A Red Hot Contest.

The struggle in the new 45th senatorial district over the senatorship is increasing in bitterness. The Republican machine has slated ex-Senator Ellisworth to succeed Senator Pound, in response, it is said, to direct orders from New York. The anti-machine element is making a gallant fight for Assemblyman John H. Clark, who is fairly entitled to the nomination but has been shut out because he would not obey the Platt machine orders.

### A Characteristic Trick.

Postmaster Northrup, of Syracuse, said in Albany the other day that the Hendricks-Platt people have put up a very characteristic job on the opposition in their own party. The anti-machine element has just discovered that the call for State and county caucuses includes a call for election of delegates to the city convention also. The opposition to the machine is naturally extremely indignant and is likely to make itself felt at the polls.

### "Very Unfortunate."

Here is the consolatory way the principal Republican organ in this State, the New York Tribune, puts it.

"It is unfortunate that necessity compels heavy taxation at a time when industries and incomes have not yet fully recovered from hard times."

It will be found especially "unfortunate" for the cause of the increase—the Republican party.

### Placing Him.

She turned upon him imperiously: "What have you to say for yourself?" The dude covered before her, alighted, and then passed through the door without a word.

She shook her head sadly. "Once more is the old saying verified, 'It goes without saying!'"

She gently locked the door behind him—Truth.

### Willie's Ambition.

School Teacher—If you had your choice, Willie, would you rather be as wise as Solomon, as great as Julius Caesar, as rich as Croesus, as eloquent as Demosthenes or as tall as Goliath?

Willie—I'd rather be a drummer in a brass band!—Tit-Bits.

### Expensive.

Rounder—This has been a very expensive summer for me.

Sounder—I thought you sent your family away on a farm somewhere.

Rounder—So I did; but I stayed in town.—Philadelphia Record.

### Woman Ahead.

One of the Springfield census enumerators is a woman. She alone of the whole force employed finished her duty in the specified time. In any kind of reckoning nowadays woman counts.

### NUGGETS OF NEWS.

Half the town of Yekhnoff, Russia, containing about 4,000 inhabitants, has been destroyed by fire.

Japan has consented to accept 20,000,000 taels as indemnity for the relinquishment of the Liao Tung peninsula.

A dispatch from Shanghai says that it is officially reported that 40,000 deaths from cholera occurred in Peking in August.

There will be a 5 per cent. increase in the price of window glass in a few days, insuring a raise in the wages of glass workers.

W. H. Yates, traveling auditor of the Ohio River railroad, was run down by a train at Ripley, Lanning, W. Va., and killed instantly.

On July 4 James Stewart, known as Paul Webb, went down a 1,700 foot chute in a barrel at Spokane, Wash. Last night he died from injuries received at that time.

A London dispatch says that 4,000 additional laborers have joined in the Dun-dee mill workers' strike. It is estimated that fully 30,000 persons are now idle because of this strike.

### Princess Colonna's Troubles.

NAPLES, Aug. 30.—The cause of the fresh troubles between the Prince and Princess Colonna is the fact that during the princess' visit to London, in June, the prince obtained control of the boys, and when the princess returned he refused to give them up. As the court gave the mother control of the children a year ago, the boys to visit the father six weeks in each year, the princess applied to the court for redress, which ordered the surrender of the boys to the mother. The prince refuses to give them up, and proceedings are now taken to enforce obedience. The princess' attorneys state that she will not give one cent, now or in the future, for a settlement.

### Girl Miners in Pennsylvania.

SPRINGFIELD, Pa., Aug. 30.—It has just been learned that four athletic young girls find daily employment at a small coal mine in the Mahanoy valley, several miles from this place. The colliery is owned and operated by Joseph Maus, a hard working German, and his daughters assist him. Katie, aged 20 years, has charge of the breaker; Annie, aged 10, runs the mine pumps and breaker engine; Lizzie, aged 18, drives a mule attached to the gin; and Mary, aged 10, sees that the shafts are picked from the coal by her little brothers, whom she helps in the work. The girls wear short skirts.

### Knights Templar Elect Officers.

BOSTON, Aug. 30.—The Knights Templar convocate yesterday decided to hold the next convocate at Pittsburg in October, 1906. The following officers were elected: Grand master, William La Rue Thomas of Mayville, Ky.; deputy grand master, Reuben H. Lloyd of California; generalissimo, Henry B. Stoddard of Texas; captain general, George M. Menclon of Illinois; senior warden, Henry W. Rugg of Massachusetts; junior warden, William B. Melish of Ohio.

### Bissell Declines a Judgeship.

BUFFALO, Aug. 30.—It is learned on reliable authority that ex-Postmaster Wilson S. Bissell has been offered the place on the United States supreme court bench made vacant by the death of Justice Jackson. Mr. Bissell will not accept.

### Fell from a Scaffold to Death.

WILKESBARRE, Pa., Aug. 30.—William Edwards, head machinist at the Gaylord mine, Plymouth, fell from a scaffolding, a distance of thirty-five feet, and was killed.

### Fed Four Hogs to Their Deas.

BUDA PEST, Aug. 30.—The Roumanian trapper and exhibitors of performing bears have been arrested in Dobrezin, in the Haiduk district of Hungary, charged with having fed their animals human flesh. In the course of their examination the men admitted that they had killed four boys, cut their bodies into pieces, and fed their bears with the flesh. The confession of the prisoners have aroused popular indignation to the highest pitch.

### Workers Want Some of the Increase.

CLEVELAND, Aug. 30.—The recent advance in the price of bar iron has caused the puddlers to discuss wages again. The question in controversy is whether or not the puddlers wages are to advance Sept. 1 to \$4.50 a ton, based on the average selling price of bar iron during July and August, or not until Oct. 1. The secretary of the Western Iron Manufacturers' association says the advance will not take effect until Oct. 1, but President Garland, of the Amalgamated association, says puddlers wages should be increased Sept. 1. Another conference may be necessary.

### Children Saw Their Mother Murdered.

CINCINNATI, Aug. 30.—Elizabeth Roberts, a young farmer at Butler, Ky., cut his wife's throat in the morning and then cut his own. He is supposed to have been insane. The bloody deed was witnessed by their three children, aged from 1 to 15 years.

### Marie Burroughs Divorced.

SAN FRANCISCO, Aug. 30.—Marie Burroughs, the actress, was granted a divorce in the superior court yesterday from her husband, Louis F. Massen, on account of the latter's unfaithfulness.

### New York's Populist Nominees.

SYRACUSE, N. Y., Aug. 30.—The state convention of the People's party was held in this city yesterday. Thaddeus B. Wakeman, of New York, was nominated for secretary of state; David Rosseau, of New York, for comptroller and other nominations were made. The platform adopted ratified the Omaha platform of 1892, declared for the free coinage of silver, for a single land tax, for government ownership of railroads, telegraphs and telephones, for the South Carolina dispensary system of selling liquor, and against the issuance of interest bearing bonds.

# Narcoti-Cure

**Cures the Tobacco Habit in 4 to 10 Days or Money Refunded.**

**Use All the Tobacco You Want Till Your "Craving" is Gone.**

NARCOTI-CURE is the only remedy in the world that acts directly on the nerves and drives the nicotine from the system in from four to ten days. It leaves the patient in better health than before taking, and is warranted free from any injurious ingredients.

NARCOTI-CURE is popular because it allows the patient to use all the tobacco he wants while under treatment, or until the "craving" and "hankering" are gone. It is then no sacrifice to throw away tobacco forever.

NARCOTI-CURE is sold at the uniform price of \$5 a bottle, and one bottle cures.

Money refunded if a cure is not effected when taken according to directions.

PROF. W. N. WAITE, of Amherst, Mass., Chewed Tobacco for 46 Years, and Was Cured by Narcoti-Cure.

If your druggist is unable to give you full particulars about Narcoti-Cure, send to us for a Book of Particulars free, or send \$5.00 for a bottle by mail.

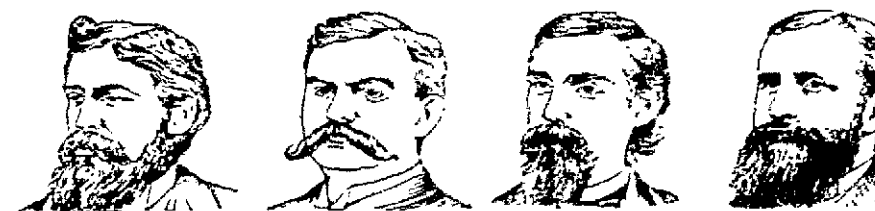

AMHERST, MASS., Feb. 8, 1895. THE NARCOTI-CHEMICAL CO., Springfield, Mass.

Gentlemen:—Replying to yours of the 1st, would say that I have used tobacco for 46 years, and of late have consumed a 10 cent plug a day, besides smoking considerably. I commenced to use tobacco when I was only 11 years old, and have never been able to give up the habit until I took Narcoti-Cure, although I have tried other so called remedies without effect. After using your remedy four days, all "hankering" for chewing disappeared, and in four days more smoking became unpleasant. I have no further desire for the weed, and experienced no bad effects whatever. I am gaining in flesh, and feel better than I have for a long time. To all who wish to be free from the tobacco habit I would say, use Narcoti-Cure.

Yours truly, W. N. WAITE.

Over 60,000 gallons of water have been pumped out daily by the steam pump which it was found necessary to use in order that the men could work. Nearly everyone seems enthusiastic over the large quantity of aqua pura which has been found, as many expected that the brook and driven wells would have to be used. It affords much pleasure to sightseers as a large number of people visit the grounds daily. The water is quite soft and stands at 52° temperature.

—Mrs. James Borthwick is sick at her home on Bridge street.

—The condition of Mr. David Sparks, who has been seriously sick at his home on Union street, is much improved.

Swung the Baby Into Eternity.

From the Warwick Advertiser.

At the farmers' picnic at Lake Grinnell, recently, an imprudent young mother, carrying her babe, five weeks old, entered one of the swings and was swung for some time. The amusement was cooling and pleasant to the woman and her babe was very quiet, apparently taking a nap. On finally alighting from the swing the woman stepped aside and walked off with what she supposed was her sleeping infant. Looking at it carefully, soon after, she discovered that the little one was dead, the motion of the swing having taken his breath away.

THE PRESIDENT COMING TO MIDDLETOWN.

The Sick May Receive Medical Services Free of Charge.

The President and members of the European and American Staff of German, English, Irish, Scandinavian and American Doctors of New York city will be at the Russell House, Middle town, on

Tuesday, September 31,

one day only. The sick and afflicted may consult them without charge during their stay.

If you are incurable they will tell you; therefore invalids must not take offence if they are rejected, as no case will be accepted unless there is a moral certainty of a cure being effected. These Doctors are graduates of the best universities of Europe and America; they are of the highest standing in the medical profession and have had unlimited experience in the treatment of all Chronic Diseases and Deformities. As the latest methods, instruments and appliances of the various schools of both the Old and the New World are familiar to and at the command of this staff of doctors, it is reasonable to believe that in ninety cases out of every hundred a cure can be effected, even when the patients have been given up as incurable by doctors who have had less experience. Do not be discouraged because your doctor cannot give you relief, or even if he tells you that you cannot get well, for it matters not what your disease may be, you can consult the doctors free, and, if curable, they will treat you; if incurable, they will give you such advice as will tend to prolong life and afford you the greatest relief.

The doctor visits Middletown one day each month. Will be at 21 Broom street, Port Jervis, Wednesday, Sept. 4th. Office hours from 10:30 a. m. to 5 p. m.

Swung the Baby Into Eternity.  
From the Warwick Advertiser  
At the farmers' picnic at Lake Grinnell, recently, an imprudent young mother, carrying her babe, five weeks old, entered one of the swings and was swung for sometime. The amusement was cooling and pleasant to the woman and her babe was very quiet, apparently taking a nap. On finally alighting from the swing the woman stepped aside and walked off with what she supposed was her sleeping infant. Looking at it carefully, soon after, she discovered that the little one was dead, the motion of the swing having taken his breath away.

## THE ARGUS.

C. MACARDELL,

PUBLISHER.

GEORGE H. THOMPSON, - EDITOR  
C. MACARDELL, - CITY EDITOR  
A. F. NICHOLS, JR., - BUSINESS MANAGER

THURSDAY, AUGUST 23, 1895.

Corporal Tanner's assertion that Pension Commissioner Lochren is doing the right thing by the veterans and the country has aroused the ire of the Buffalo Commercial Republican, which says that "it is evident that death and a deep grave are necessary before Corporal Tanner will be convinced that the period of his mouth's usefulness terminated long ago."

Quay's victory in Pennsylvania is a black eye for Harrison's Presidential aspirations. Quay quarreled with Harrison early in his administration because he thought he was not treated with sufficient consideration in the distribution of patronage and, since he neither forgets nor forgives, he will throw Pennsylvania's vote in next year's convention against the man from Indiana, for whom, he tersely says, he "has no use."

Quay's triumph over the Hastings-Martin combine in the Pennsylvania Republican convention, yesterday, was so decisive that it was good politics on his part to be magnanimous to his defeated foes. The apparent concessions that he made in the interest of harmony will help to strengthen his hold on the rank and file of the party and will make him a bigger boss than he was before. In reality Quay conceded nothing. He cared not a rap for the make-up of the State ticket; he was out for bigger game—the control of the State organization, which means control of the delegation to the Republican national convention, next year. As a result of the defeat of the combine, there are already rumors of bickerings among its members and the Honorable David Martin has publicly declared that in his anxiety to save himself from more complete humiliation, Gov. Hastings "bilked" his allies.

The New York World brings the parallel column to bear on the McKinley versus the Wilson tariff, and with deadly consequences to what our Republican contemporaries are pleased to call "the best and brainiest tariff ever formed." The record of the McKinley tariff in nine of the largest steel and iron works in the country, which are named, is one of wage reductions, strikes, shut downs and thousands of men thrown out of employment. The record of the same concerns, in a year of Democratic tariff, is resumption of work, starting up of closed departments and voluntary advances of wages, in some cases to points beyond those ever paid in the days of high protection. The Trenton Pottery Trust, which under McKinleyism announced a reduction of 33 1/2 per cent. in wages, under a Democratic tariff has increased wages, the advance in some departments being 40 per cent. In the cotton and woolen industries the McKinley tariff record is short time, wage reductions, strikes and shut downs, while under the Democratic tariff the same concerns restored and advanced wages and are running to their fullest capacity. A year under a reformed tariff has brought confidence and prosperity to our manufacturers, and peace and plenty to their employees. More than this, lower prices for all the necessities of life have so increased the purchasing power of a dollar that the condition of the wage earners of the country was never as good as it is and will be under the Wilson tariff.

The wind grew very light after the yachts had started and almost died out.

The Valkyrie seemed to gain on both yachts in the light wind. After following the races for some time the Valkyrie turned about and put back.

HIGHLANDS, Aug. 20.—The Defender turned the first mark at 2:01. The Vigilant was six minutes later. The winds are still light.

HIGHLANDS, 3 p. m.—A squall is coming up from seaward, and the weather is so thick that it is impossible to see the yachts.
